

Between fence & 1st. crossing - ditch 23' wide.  
May. H. set back from ditch lip.

2nd. crossing: Huge M.H. - at it the V.D. = 22' wide.

3rd. " : modern one. - on Roman presumably.

4th. : N.M. gap: none in south mound opposite.

Causeway questionable. V.D. ramped with here.

Ditch immed. west = 32' wide.

24 paces further on - dep. in S.H.

5th. : N.M. gap. No S.H. gap. Definite small crossing.

Just east, ditch is 30' wide.

M.H. still continuous. Slight m.m. on north lip?

6th. : Both gaps I think.

Definite slight crossing. Ditch just west = 32' wide.

7th. : ~~Both gaps I think~~. N.M. gap : not in S.H. M.H. high.

~~Definite gap~~ No apparent crossing.

Gap  $\frac{1}{2}$  way roughly. 6th/7th crossings.

Ditch 30' at this point.

8th. ? is there one before me, causeway? - latter does not come quite at right position. Causeway stretches eastwards to posit. of 8th. crossing.

N.M. poor - no apparent gap in S.H.

Slight dep. beyond causeway in S.H.

9th. - last before Plantation - both mounds gapped.

Huge M.H. - slight crossing I think?

Ditch only 23' (despite existence of M.H.)
