

DATES MASTER

Date 1

9 December 2014 14:34

PREDATE

Hello again!

Hi. (pause) So what are we going to do?

I dunno.

Wait for instructions -

Oh, yeh probably wait for instructions.

Cool.

It might have something to do with,
exposing the data!
(Laughter)

I've got nothing in mine so...

You've got nothing in yours, have you
really?

I only just did it 2 minutes ago!

I put so much effort in! I literally have nothing to do.

Well I only just got invited like 2 days ago, and
I just found the email in my inbox and I was like
'yeh I'm going to this' and I didn't have time to
come pick up the thing, so I had to do it when I
came. So sorry! I'm not trying to hide anything,
but you know.

It's good for the variability of the data
though, you have some people that have...
put a lot of effort into it and done it very
sincerely, and you have some people who
have turned up at the last minute and are
just chancers!

You calling me a chancer? (laughter)

Sounds right. I'm judging you already, I've already seen your lack of data! (laughter)

But yeh, I couldn't make it up, I needed to
record for the week. I couldn't make it up, I
needed to record it and I couldn't just say I
slept ten hours when I actually.

Could have just made yourself sleep ten hours.
Gotta make up for a week's worth of sleep.

I think I have an awful sleeping pattern.

Irregular, or too much or too little?

It's too irregular. I call it a pattern, it's not really
a pattern. I go home, watch a movie...

BELL (Swap dates over)

(2:26)

Oh dear, there you go there it is...

I'm not gonna judge?

Oh my god! It's literally nothing! (hysterical laughing)
Ok, this is all I've got to go on. Well and
the fact that we're sitting at a table
opposite each other..

Commented [CE1]: A show, exposition. Coveted.

Commented [CE2]: Immediate down play.

Commented [CE3]: Seeking similar effort/Taking it seriously.

Commented [CE4]: Aware of research agenda.

Commented [CE5]: Judging - first impressions. Judging data before she's seen it.

Commented [CE6]: Constrained by honesty. And filling out the profile rather than being more creative with it.

Commented [CE7]: Further teasing on lack of data. Sort of hiding that this is important to her.

61 (Pause)
 62 Where are the Morne Mountains?
 63 Erm, somewhere in Northern Ireland
 64 Oh really.
 65 Ah, there are nine of them and you're
 66 meant to climb all nine in a lifetime, and I've
 67 only done 6 so, I need to go back and do
 68 the other 3.
 69 Plenty of time.
 70
 71 Yeh - it was in 2006 as well. It was really
 72 cool. Like it was good to do it with friends,
 73 but I like to do it alone, because it gives
 74 you time to think about stuff, and just be
 75 there. It was cold, it's cold.
 76
 77 Is it dangerous to be on your own though?
 78 It is. But there's quite a few people like do it..
 79
 80 So if you come into trouble likely someone will catch up with you.
 81
 82 Yeh, and they're guide routes as well so
 83 you're not straying into the forest or
 84 something, but it's really [cool out there?]
 85
 86 Ahhhh. Well I've not heard of them before.
 87
 88 I like hiking a lot.
 89 Yeh..
 90 New Zealand, is that what it says?
 91
 92 Yeh. Sorry my hand-writing might let me down, especially when it's photocopied I thought,
 93 god nobody's gonna have a chance reading what I've said.
 94
 95 Yeh...
 96
 97 Yeh...New Zealand. New Zealand is just beautiful. It's just got everything. It's not that big, it's
 98 got a bit of everyone. It's got mountains and plains and glaciers, and beautiful bright crystal
 99 blue glacial rivers and.. beaches and penguins and ... everything.
 100
 101 How long were you there for?
 102 2 months in the end.
 103 Really?
 104
 105 2 months? Yeh. I went on a kind of round the world trip for 6 months, and spent 2 months of
 106 it in New Zealand, which is testament to how much I liked it, wanted to stay. And that was
 107 New Zealand.
 108
 109 Would you go again?
 110 Yeh.
 111
 112 I've never been, but I've got quite a few friends who've been
 113 like to the Lord of the Rings something something
 114 somewhere.
 115
 116 (Laughter) I went there shortly after...well it was, people were still really excited, it was not
 117 long after it was released. And everywhere you went, everybody had some link to it. I rode a
 118 horse, I was an extra in this scene, I rode a horse in this, and I did the make up in that.
 119 Everybody had something to do with it.
 120

Commented [CE8]: Question - Location

Commented [CE9]: Leading to short anecdote.

Commented [CE10]: Follow-up question.

Commented [CE11]: Change topic with data - no question really asked - begins anecdote.

Commented [CE12]: Follow-up question.

Commented [CE13]: Allows her to talk about exotic travel.

121 Yeh (pause - laughter) Ok.
 122 You're a massive Indian fan then?
 123
 124 (pause) Well... I was just trying to think of food and drinks I particularly like. I probably eat, I
 125 dunno, Italian more than any other food. But actually, if I was making one food I really like, it's
 126 usually curry, I just don't make it often enough!
 127
 128 My ex-girlfriend was Indian, and I always
 129 used to hang out with her family and I had
 130 so much Indian and I just don't like it
 131 anymore.
 132
 133 (groan) Oh no.
 134
 135 But no.. yeh, it's, I'll eat anything in general,
 136 but at the same time... I have things that I
 137 don't like and Indian is probably one.
 138 Depends though, if it's real real Indian, it's
 139 very unhealthy.
 140 Yeh...
 141 (Pause)
 142
 143 Yeh, I'm not entirely sure that my other curry that I eat is particularly genuinely Indian. But I
 144 live in Leeds and a stones throw from Bradford with their really genuine Indian restaurants
 145 and I don't use it well enough actually (laughter)
 146
 147 More there, twice a week.
 148
 149 Yup, well that was because I made a batch on Wednesday, and had it on Thursday because
 150 there was some left over, and there's still some in the freezer.
 151 Nice.
 152 I don't know if it's fair for me to [lead with
 153 this] because I haven't got any..
 154
 155 No go ahead, do that. Got to have something to talk about.
 156
 157 (Pause) What's this?
 158 That's the 3 websites I use the most.
 159 Time on websites, oh.
 160 (pause)
 161 My god, what were you doing... did you just
 162 wake up... that's a really low heart rate.
 163
 164 Yeh no. I was just sitting... sitting at my desk feeling that in?
 165
 166 The lowest I've had mine is 53. I just woke up from sleep.
 167
 168 Ah, no I do have. I mean considering I do, no exercise. I don't really take care of myself as
 169 well as I should. I've got a really low blood pressure and have a really low heart rate just
 170 through accident and chance, rather than any kind of effort. I know that's probably kind of
 171 infuriating to people who actually exercise.
 172 (BELL)
 173 Is that actually an answer?
 174
 175 Yes. 'That's a stupid question'. Well it's a stupid question, because you can't put three. How
 176 do I put three it's ridiculous.
 177 Which way?!

Clockwise?

Commented [CE14]: Based on having 'curry' as a food.

Proposes a judgement – as a question to her.

Commented [CE15]: Response to explain the answer.
And qualify the judgement.

Commented [CE16]: Referring back to data – supports his suggestion – you're a big fan of indian food.

Commented [CE17]: No judgement – just asked to explain.

Commented [CE18]: Nothing more to say here.

Commented [CE19]: Judgement – see's heart rate, suggests it is low, offers explanation – you just woke up.

Commented [CE20]: Comparing this to his own experience.

Commented [CE21]: Turns this to discussion to reflect her relaxed, no exercise identity.

Commented [CE22]: As if he expects she should just 'answer' the profile. Whereas she has been much more creative in interpreting it.

181
182 =====
183
184 **Date 2**
185
186
187 Hello!
188
189 Nice to meet you again!
190
191 Nice to meet you again!
192 So do you wanna reveal your...
193 Oh, go on, go on, let's do this. Dive in!
194 Ahh, everyone's put music as one of their things.
195 Yeh, and you did that too. Ah I like the, vinyl.
196 Although actually, it's not very true at the moment. My preamp is broken so I can't listen to
197 vinyl at the moment. I've got to get it fixed.
198 So this should actually... this isn't really
199 what you're recording, it should just be blank
200 because you didn't really listen to them...?
201 Should be a cd, well, I listen to CD's and the radio.
202 You listen to CD's still?
203 Yeh, I'm pretty analogue - 100% Analogue!
204 Oh yeh!
205 See!
206 I didn't listen to any cassettes this week, (Laughter) although I could have done.
207
208 That's kind of cool.
209 Well our stereos broken, it doesn't even turn on any more, I
210 couldn't even extract a cd from inside it to listen to it in the car.
211
212 I really miss that, because I used to listen to a lot of music, but now I've moved here
213 and I didn't bring my stereo and I've only lived here for 2 months.
214 Really?
215 Well 2 and a half months.
216 Wow. Where are you from?
217 Denmark.
218 From [CITY] (on data)
219 What brought you here?
220 [ANON].
221 Oh god. (laughter)
222 I'm one of those.
223 But yeh it's just weird to live that long without
224 my stereo. I don't think I've ever done that
225 before, but it's kind of ok. It's not that bad. I
226 expected it to be much worse.
227 I guess there's so much, if there's music you
228 want to listen to, you can find it on the
229 internet, and plug it into some speakers.
230
231 Yeh, yeh. Obviously I still do listen to music, but..
232
233 Aww some Bjork, and Steve Riech! Cool! Aww.
234
235 I like your answer though - 'that's a stupid question'
236
237 Well I tried to answer it and I just couldn't because I thought, oh I like this music, then again,
238 I just couldn't
239 - but it's funny -
240 put it down to 3 things.

Commented [CE23]: Sense of reveal.

Commented [CE24]: Music a common, standard topic.

Commented [CE25]: Questioning data she has presented - this should be...

Commented [CE26]: Clarifies - data is fine, besides the medium.

Commented [CE27]: Backs up comment/description with something on her profile.

Commented [CE28]: Stock question.

Commented [CE29]: Clarifies his answer through recognising Copenhagen on data.

Commented [CE30]: Recognising artists she likes, in his data.

Commented [CE31]: Complimenting her answer/data in return.

These are 'answers' rather than data.

241
 242 **I had the same feeling, I felt like the easiest questions**
 243 **were actually the ones in between. But movies I**
 244 **couldn't think of any movies, but music I could just**
 245 **think of way too much.**
 246
 247 I could have just put the three first things that came into my head, or the three last things I
 248 listened to but..
 249
 250 **I felt like I was doing this really last minute –**
 251
 252 **I tried to be sincere... And I just couldn't**
 253 **I appreciate your honesty!**
 254
 255 **Cheese. Favourite food is cheese. A lot of cheese.**
 256 **(laughter)**
 257 Wow.
 258 **Yeh, I don't know i should actually**
 259 **put in a dating..**
 260 That's good though, I like a lot of cheese.
 261 **Well I think everyone does.**
 262 I couldn't - well actually my last boyfriend was
 263 vegan - but on the whole, I don't think I would
 264 date a Vegan again, I'm not sure I could date a
 265 man who didn't like cheese.
 266 **I used to be a vegetarian for a while - I mean**
 267 **Vegan, I would never be able to do that,**
 268 **especially because of the cheese.**
 269 Oh no, it's too far.
 270
 271 Ok.
 272
 273 **Ah you have 'Dancer in the Dark' so**
 274 **that's kind of like Bjork?**
 275 Yeh, aw I love Bjork, Bjork's brilliant. If I had put
 276 some in there, there would have been Bjork, Janis
 277 Joplin.. so I should have put something down!
 278 **Well, I don't know, if it's a conversation starter.**
 279
 280 That's also been a conversation starter!
 281
 282 Mood, I feel excited on Saturday. Aww, oh I see, and then Happy and Hungover on Sunday,
 283 **(Laughter)** they explain each other.
 284
 285 **Yeh, my sister was visiting for the weekend. I had**
 286 **my birthday just before the weekend so I was**
 287 **celebrating that with a lot of friends, and food and**
 288 **drinks, a good weekend.**
 289 So why disappointed on Thursday?
 290
 291 **Because, I think it's all related, because I had a**
 292 **really good weekend, so I was tired, so I didn't**
 293 **really get all the work done - BELL –**
 294
 295 So it was a little disappointed, productive again on Friday.
 296
 297 **Ok, I better... But Thankyou!**
 298 Yup! See ya!
 299
 300

Commented [CE32]: Empathising with her.

Commented [CE33]: Music very important to her, didn't want to just reduce it to 3 things as profile/data required.

Commented [CE34]: Change topic – statement/repetition of data.

Commented [CE35]: Recognising commonality between his and her data.

Commented [CE36]: Realising that by not putting an answer, she has still started a conversation about music. It's expressed in another way the importance of music in her life.

Commented [CE37]: Reading out data – then making sense of it out loud.

Commented [CE38]: Response to explain the context of this data – his birthday weekend.

301 =====
302
303 Date 3
304
305
306 'Allo again.
307 Oh, look at that, straight in there.
308 Sorry I just. (mumble)
309 Aw look, you've got a very intricate graph there.
310 What have you got?
311 Making things and writing about things.
312 (Pause)
313 Are the things the same things that you made and write about?
314 Erm, ideally, but not sometimes.
315 Oh that's throughout the whole year.
316 Yeh that's the whole year.
317 You tracked that? How did you track that?
318 It's based on landmarks mostly, yup, so I
319 probably couldn't do it day to day, but whole weeks.
320 Amount of space in brain used at work...
321
322 Aw you did a proper map and everything.
323 (Small chuckle) (pause)
324 Road trip around Canada.
325 Er, yeh. Well just across a little bit of Canada,
326 I've probably exaggerated a bit there, it was
327 probably more like... that bit. It was weeks,
328 but that's not a lot when you're driving
329 around Canada.
330 And around Europe, and Britian and
331 all over! In the past year? Oh no..
332 1997.
333 I've not travelled that much to be honest, it's
334 mostly been working travel.
335
336 Food or drinks... Aperol Spritz! Oh yeh!
337 The things is I've put all my favourite
338 things and I've barely ate them!
339 [ANON]
340 [ANON]
341 [ANON]
342
343 Ah, Fungus the Bogeyman, nice.
344 (Laughter)
345 The Name of the Rose. Osbourne book of Dinosaurs! (Laughing)
346 Yeh! Which I saw again -
347 First read in 1982.
348 Well I remembered that I really liked it and then I
349 actually, a friend of mine was doing a project about
350 kids books, and she had a copy.. and it is actually
351 as good as I remembered.
352 Ah, that;s fucking brilliant.
353 Same as Fungus the Bogeyman, it is
354 actually as good as you remember it.
355
356 100% Analogue Data, nice. I wore no beads! (laughter)
357 It looked like beads, I thought. I don't
358 know what it was supposed to be, so I just
359 improvised.
360

Commented [CE39]: Immediate focus on data.

Commented [CE40]: Attracted to graph.

Goes on to make a series of observations about data. To which G responds not at all, or succinctly. She's working it out herself, out loud with clarification.

Commented [CE41]: Question to self - which indicates his active interest in her profile.

Commented [CE42]: Incredulity about how this could be tracked.

Commented [CE43]: Plausible explanation offered.

Commented [CE44]: Impressed by the quality/effort of his profile.

Commented [CE45]: This is just a statement - but elicits a clarification.

Commented [CE46]: Downplaying his travelling.

Commented [CE47]: First remark by G on her data.

Commented [CE48]: Now exchanging compliments on each other's data. Roving over topics.

Commented [CE49]: Remark provoking anecdote.

Commented [CE50]: More compliments.

Commented [CE51]: More compliments.

Commented [CE52]: Expressing her creativity.

361 Music listened to this week, electronic
 362 snythy stuff, indie stuff, female singer
 363 songwriter stuff, house metal and techno!
 364 Yeh there's not been a lot of metal this week.
 365 No miles run, no miles cycled.
 366 No...
 367 Thankyou Strava, who's Strava?
 368 Strava's like a cycling running app,
 369 that tells you when you've not done
 370 any running or cycling. And goes
 371 'you should really go out' . And then
 372 you have to say - I don't wanna go
 373 out, I've got a fucking cold, and it's
 374 cold outside.
 375
 376 Yeh leave me alone.
 377 I'm in London, go away.
 378 None of your business!
 379
 380 Two lane.. oh I know the bottom two
 381 of your films. What's two lane
 382 blacktop?
 383 It's a sort of road movie, you know James Taylor?
 384 Yeh James Taylor Quartet.
 385 Yeh, no. Actually, different James Taylor. So
 386 they're the guys on the Acid Jazz label.
 387 James Taylor is a ballady singer song writer,
 388 did 'you've got a friend'. So quite a while...
 389
 390 A lot of people did you've got a friend, did he do the original?
 391
 392 Yes yes. But he, he was an actor as well in the 70's and it's a film about...yeh.
 393 (Laughter)
 394 Yeh yeh, I saw that...
 395 [Crosstalk - Ash!]
 396 Like a bit of Ash! That's really odd as well like -
 397 That's really random thing to -
 398 And I was listening to 1977 - my car's only
 399 got a CD player. And most of my CD's were
 400 stolen out of another car a few years ago. So
 401 like I've only got the 2nd echelon CD's that
 402 are like 90's -
 403
 404 I wish I'd had 1977, but I had Petrol. Was it
 405 Petrol? The first one? You know the mini-
 406 album?
 407 I didn't know they had that.
 408 (Pause) Well, aficionado of 90's indie music...
 409 (Laughter) Yeh
 410 I wanted to bring up some stuff to sing along
 411 to, stuff I knew the words to, so I was going
 412 back to teenage music. But Ash yeh...
 413
 414 I wasn't expecting anyone else to come up
 415 with Ash.
 416 BELL
 417 A bit of Gin & Tonic
 418 Enough Gammon
 419 Not enough Red Wine!
 420 One Gammon. That's enough.

Commented [CE53]: Recording of absence of activity - leads to a more amusing anecdote/story.

Commented [CE54]: Playing out a joke together.

Commented [CE55]: Curious about the one film she doesn't know.

Commented [CE56]: Conversation took a tangent away from data. This pulls it back.

Commented [CE57]: Shared reminiscence.

Commented [CE58]: Enjoying his inexact interpretation of the quantities.

Commented [CE59]: Which afford a joke.

421 No that is.
 422 **BELL**
 423
 424 **My sister-in-law once bought me**
 425 **gammon for a birthday present!**
 426 (Laughter)
 427 **It's true!**
 428
 429
 430 =====
 431
 432 **Date 4**
 433
 434 Hello!
 435 **Hello! Let's see your pictures, you said you drew pictures!**
 436 Yeh yeh!
 437 **Yes. I've got one.**
 438 You drew a picture –
 439 **I did –**
 440 - use of email.
 441 Did you not do any of these or do you
 442 just didn't make it that far?
 443 **It's too hard to choose a favourite set**
 444 **of movies and films.**
 445 That's what I got to with music.
 446 **Yeh 'that's a stupid questi...'**
 447 **Well I've been using the, well not Pandora**
 448 **since that stopped, well Last Fm until that**
 449 **stopped.**
 450 Has that stopped as well?
 451 **Yeh you can't stream the - you can use it**
 452 **on the website now, with Youtube videos**
 453 **but you can't use the mobile phone**
 454 **streaming music.**
 455 Oh.
 456 **Which is sad, I was actually paying for that.**
 457
 458 Ah. Lots of calls to mum.
 459 **Yeh.**
 460 How's mum?
 461 **Mum's good. Yeh (laughter). Mum's doing well.**
 462 People in my house. Do you live alone?
 463 **I do. I decided....**
 464 So these people in your house are all guests to your house?
 465 **Yeh. So..**
 466 Different guests? Or -
 467 **Different yeh.**
 468 Aw Nice,
 469 **My friends graduated, so I moved onto**
 470 **my own, because it's time. And then I**
 471 **was like, there's not enough room for**
 472 **me, I need a bigger place -**
 473 Just for me! (sung)
 474 **Exactly. So I've got three bedrooms and**
 475 **occasionally I have guests, like visitors**
 476 **to [work]. I had one guy for a few**
 477 **months, I've got a guy who's been there**
 478 **for a week now. Who might be here**
 479 **another few weeks. And I like the**
 480 **company.**

Commented [CE60]: And finish on a funny/random anecdote.

Commented [CE61]: Request to see particular data. In reference to previous conversation.

Commented [CE62]: Repeating data out loud

Commented [CE63]: Questioning a lack of data – you chose not to do these – or not enough time/effort?

Commented [CE64]: Difficult choice.

Commented [CE65]: Repetition of data.

Commented [CE66]: Acknowledgement.

Commented [CE67]: Then question.

Commented [CE68]: Repetition – question. Repetition to move/set topic

481 Oh, is that from couch surfing?
482
483 No, there's people to visit - just that
484 come here to the office.
485 [ANON].
486 It's handy. You hear that they're
487 staying in a hotel in Jesmond...
488 So I could have 3 for a while... I
489 like having one room just for
490 clothes - and one room just for -
491 [ANON activity class]?
492 Yup - Wednesday afternoons.
493 What Polish language? Or pole dancing?
494 [ANON activity class]?
495 Really?
496 Uh-hum.
497 Wow. I never knew of such a thing. I
498 know some girls who do that. I didn't
499 know that boys could do it too.
500 Boys do do it. It is... amazingly hard.
501 Yes, it really does tone you up in
502 places you wouldn't expect.
503
504 I just started it a few months ago, and I was doing the other things, the yoga, the
505 climbing, and the cycling and the pilates but when I did [ANON activity class]?
506 - more things hurt!
507 Muscles you didn't know you had and all that.
508 So I've never been to the gym to work things out -
509 Do other boys go to that?
510 Yeh, three other boys.
511 Really?
512 Yeh.
513 I never knew, it's a genuine revelation.
514 It's a class of about 100 or so people, but
515 yeh, 4 boys total. And it's certainly good
516 exercise. I'm still amazed by the stuff they
517 can do.
518 I think until I actually tried it, I wouldn't
519 appreciate how difficult it is.
520 I knew it was exercise. It's definitely something I'm enjoying
521
522 Ah late, as in late for stuff.
523 Yeh.
524 Just Saturday.
525 Today. Yup, I was late here.
526 Oh were you? Did you fill that in when you got here?
527 Yeh.
528 (Laughter)
529 As for this one - the amount of time
530 spent filling this in.
531 Oh I didn't notice that one. I thought
532 you meant planning trips.
533 I notice I hadn't travelled since..
534 Oh, good use of PhD.
535 BELL
536 Oh, I've just talked about me.
537 Yeh - never mind, that's alright.
538 =====
539
540 Date 5

Commented [CE69]: Confirmation.

Commented [CE70]: Comment/judgement.

Commented [CE71]: Elaboration, and pointing to further data.

Then ongoing topic of conversation.

Commented [CE72]: Pointing to his own data.

Commented [CE73]: Which she had overlooked.

Commented [CE74]: Offering her original, incorrect interpretation.

Commented [CE75]: Acknowledging one sided nice of conversation (enforced by Ellen asking lots of questions).

541
542
543 Hello.
544 Hello.
545 [Girls Name]
546 [Boys Name].
547 So - what's your fastest walking
548 pace - no - we're swapping.
549 I thought it was like top trumps!
550 Quite fast, probably quite fast. Oh yeh we
551 should do that!
552 Oh you win on shoe size. I win on hair length.
553 Yeh - although apparently I over estimated
554 with 7 for hair length. [Anon] says. She says it's too long.
555 Probably yeh.
556 So you wanted to track coffee but you didn't? Or biscuits?
557 No I did. Drinks, and biscuits.
558 Ok drinks and biscuits, ok. I liked that
559 you see, I thought that was a good
560 tracking thing, the biscuits.
561 I didn't know if - especially when it was
562 photocopied, whether you could read it.
563 even without it being photocopied to be
564 honest if you could read it. I put a lot of
565 detail. In those little boxes.
566 3 rich teas, 2 Nice biscuits, and one fruit shorty.
567 Yeh, and a ginger nut, I had to extend
568 beyond the box.
569 Jesus, you've got a biscuit habit man!
570 I didn't have any on Tuesday or Thursday.
571 That's big time. No those are sad days. You
572 can't be happy without a biscuit, is that what
573 you're saying?
574 No. I alms had a ginger stem biscuit on Thursday.
575 Did you? That's a bit edgy.
576 I wore no beads. Neither did I.
577 Well... I didn't know what this circle thing
578 was about.
579 No - I didn't either. I've just left mine blank.
580 Oh yeh. Ohhhh - this was... (laughter!)
581 I was trying to figure it all out you know,
582 because I swear to god -
583 that's brilliant!
584 There's a seasonal -
585 Ability to walk correlated to -
586 - No wake! That's wake! Not walking! My
587 ability to wake! I can walk!
588 Because we were talking about this on our
589 table! Like - amount of sex correlated to was
590 of walking...
591 You could do that - like the day after.
592 Amount of sex goes up, and ease of
593 walking goes down.
594 No that's ease of waking. Although you
595 have to remember here, because 0 is easy
596 and 10 is hard for wake. So -
597 Either way they cross over.
598 There's a cross. so it's kind of seasonal
599 So the best sex you have, the easier it is to walk.
600

Commented [CE76]: Creating a game out of the data.

Commented [CE77]: Competitive on the mundane details to hand.

Commented [CE78]: Judgements of 'what' is tracked as much as the numbers themselves.

Commented [CE79]: Repeating her data back to her. To invite her comment.

Commented [CE80]: Summarised humourously as a 'biscuit habit'.

Commented [CE81]: Repeating her data out loud.

Commented [CE82]: Agreeing - empathising.

Commented [CE83]: Attempts to begin a performance/lengthy description of the graph, it's meaning and it's inclusion. But is frequently interrupted.

Commented [CE84]: She seems to want to push this joke home and keeps returning to it.

Commented [CE85]: He keeps refuting it. Part of the joke, but also frustration.

Commented [CE86]: Necessary caution about how graph is interpreted. Tricky scale.

601 No the more sex, because look, where's
602 sex, sex is D - so that's easier waking.
603 That's easier walking.
604 It's easier waking.
605 You've misconstrued that! We thought more sex, hard to walk (laughter).
606 Nooooo!
607 (laughter)
608 That's a whole other story...
609 That's easier waking.
610 [mumble/cross talk - oversharing]
611 That was oversharing.
612 Because easier to wake in the summer,
613 in early spring and winter, I hate
614 waking up, and yet, you know there's a
615 correlation here, and also with no. of
616 dates and working hours.
617 Oh dear. Superflu - as in the French
618 band that were in the French textbooks?
619 No - as in like the German electro, house
620 and techno guys from Berlin. Were the
621 Superflu, the French -
622 'Superflu' (in French accent)
623 Really?
624 I'm sure they were - maybe they were in
625 the German textbooks they were in.
626 Jesus, they were textbooks ahead of their day if
627 they were talking about house and techno.
628 There was one, I can't remember if it was
629 a French or German textbooks, where
630 the band that we were talking about was
631 like 'I like music, I like the band Superflu'
632 (in accent).
633 Really? Maybe they've taken it from there?
634 When were SuperFlu active? Recently?
635 Well they're like probably, 7/8 years ago? Yeh.
636 This is a different Superflu then.
637 Maybe they named themselves after a fictional
638 band in a French textbook in the late 1990's.
639 I like your correlation to Radio 4,
640 and erm listens.
641 Is this like 300 listens? This is accidental, this
642 minutes - oh shit - I didn't put - I should have
643 put minutes. This is minutes. 300 listens?
644 Is that your top radio shows?
645 These are accidental. No I car share to work. I live in
646 Leeds and work in Sheffield. So I've got an hours drive
647 either way, and one of my car shares listens to a lot of
648 Radio 4, and the other listens to a lot of Radio 2.
649 Oh right! So in a way this doesn't really
650 tell us about you, it tells you about our
651 inadvertent exposure to others?
652 Yehhhh... In a way.
653 BELL
654 I do quite like some Radio 4. But some of
655 that was deliberate listening to 'Thought for
656 the day'.
657 Thought for the day is good - reverend...
658 But I suppose if you ignore that, you've

Commented [CE87]: Still pushing this joke.

Commented [CE88]: Still trying to explain.

Commented [CE89]: Data to change subject. Relating data to another story/piece of knowledge in question.

Commented [CE90]: Voice play.

Commented [CE91]: Complimenting data as subject change.

Commented [CE92]: Error in data - listens instead of minutes - she moves quickly to clarify.

Commented [CE93]: Presented data - which is not actually her sole listening - but a curious part of her life - car sharing on commute.

Commented [CE94]: Data telling about much more than individual.

Commented [CE95]: Bell has gone and conversation continues.

Commented [CE96]: But does identify with this data somewhat.

661 still got a lot of Dinosaur Juniors, some
662 Sleep with Mods, which is all still fairly
663 accurate I suppose.

664 **Ok, that is interesting.**
665 **What's happened to muesli? You need to**
666 **have more muesli. More muesli in your**
667 **diet.**

Commented [CE97]: Carrying on looking at her data. Offering a teasing criticism – you should eat more healthily.

Commented [CE98]: Answer an explanation of her breakfast/data for the week.

668 I usually do but - that was an away day, so I got a bacon
669 sandwich on the way, because I couldn't access any milk.
670 That was... something else, that was a strudel day
671 because I got a strudel for cheap.

672 **Woah - for breakfast? Strudel for breakfast?**

673 I got cheap strudels in Morrisons.

674 **How some people live.**

675 Stale strudels for breakfast!

676 **What a wonder. What a life. Nice to meet you.**

677
678
679 =====

680
681 **Date 6**

682
683 **Hello.**

684
685 Hi.

686 **So I'm not presenting [ANON] to you - I thought we would take each other's one and**
687 **present them to somebody else.**

688 That would be weird if you were presenting [ANON].

689 **But kind of interesting though, because you might have to think through presenting**
690 **someone else's persona. But that might tell you even more about the persona you're**
691 **presenting that through to someone else.**

Commented [CE99]: Reflective on the activity/process in play.

692
693
694 But then you would be selling another girl in the room to me who kind of is my competition... if
695 you look at it in that way.

696
697 **Ok... yeh I could see that. But then that would tell you more about my interpretation**
698 **and the person and the person I was selling to you, which might then tell you about**
699 **how I was approaching this 3 minutes of a supposed date.**

700
701 If you were really thinking about it in that much depth within 3 minutes.

Commented [CE100]: M feels he is overthinking this though.

702
703 Yeh mine's not...

704 **Do we swap.**

Commented [CE101]: Pre-emptively downplaying her profile.

705 If you want.

706 **Is that the general idea?**

707 I think so.

708 **Gosh, yours is neat. Mines looks -**

Commented [CE102]: Remarking on neatness – quite a contrast to his own.

709 - and incredibly mundane.

710 **Mundane? Really?**

711 I haven't sold myself very well.

712 **No, but you used a ruler.**

713 (laughter, mumble) ..very precise.

714 **I did this at about 4 o'clock this afternoon,**
715 **is that bad?**

Commented [CE103]: Confiding – also downplaying his profile in a way.

716 I did mine on my lunch break yesterday..

717 **Ok good.**

Commented [CE104]: Reciprocating comments – but this is the only remark she makes on his data.

718
719 Yours is detailed, you've actually thought about it.
720 **I've made a lot of stuff up, I will be honest with you. A lot of it is fictional.**

Commented [CE105]: Frank about the fictionality of parts of the profile.

721
722 House and electro - ok, interesting -
723 what kind of house and electro?
724 (Pause). I could probably name the
725 DJ's and stuff I like. Erm...
726
727 Mostly that is House and Electro - well
728 those first two are.
729
730 Although not this week - I've got
731 to cover that one, that's like all
732 time favourite. It's kind of Berlin
733 techno. I suppose.
734
735 Ok, well I like Crookers I suppose. What else? Have
736 you heard of [hannah monsoon?]. She's a new DJ,
737 she's here next Friday, so I'm going to see her.
738
739 Oh right where -
740
741 Well, I saw that advertised. I was
742 in Digital about 2 weeks ago, and I
743 didn't stay very long, because I
744 felt like I was about 10-12 years
745 older than everybody.
746
747 That's probably how I'm gonna feel as well.
748 It's a very good sound system though as well.
749
750 I think I might have been there once or
751 twice ever. And they weren't like dance
752 nights, they were just terrible, cheap
753 Monday nights, like random.. Yeh, But I
754 like big dance nights, I don't know why I
755 never find them here.
756
757 Really good dance nights are so kind of... thin
758 on the ground here. Manchester - have you
759 heard of the Warehouse project in Manchester?
760
761 Yeh.
762 Have you been there?
763
764 Nooo...
765 No I wanna go to the Warehouse project!
766
767 Have you never been?
768
769 Nooooo! I haven't. It's so stupid, because I
770 have friends I can stay with afterwards as
771 well. And they have amazing people playing
772 at Warehouse project.
773
774 Everyyear I look at the Line-up and I think I
775 really really want to go to this. And I can;t think
776 of anyone - I think the people I would go to
777 nightclubs mostly would be my brother and
778 friends at home in Ireland. So like when I go
779 back, I always do the dance stuff when I go
780 back, but they're not here.
781
782 Is that [PLACE]?
783
784 [PLACE] is like my child hood place, and [PLACES
785 in IRELAND] and they're on the border with each
786 other.
787
788 Ok.
789
790 So we went to [PLACE] always when we were younger.
791
792 Yeh - So that's one of your favourites?
793
794 It's beautiful.
795
796 Along with Greece.
797 I've never been to Greece. Is it good?
798

Commented [CE106]: One question on a shared interest which sparks most of the conversation.

Commented [CE107]: Cleverly turns to data to inquire about where home is.

Commented [CE108]: Follow up questions drawing further on data.

781 Greece is wonderful. Yeh. I went for Greek
 782 food last week, in Liverpool. With my mum
 783 and brother, and that was just... - you need
 784 a good Greek salad and some Ouzo.
 785 Ouzo is like Raki isn't it? Ouzo is like the
 786 greek equivalent of Raki.
 787 Yeh.
 788 Bad bad memories, bad night.
 789 Where have you had that?
 790 Far too much Raki in Berlin. When I was
 791 living in Berlin. Far too much living in the
 792 Turkish area. Went out for a night and ended
 793 up drinking Raki at about 4 or 5 in a Turkish
 794 kind of working mans club.
 795 Oh that's always good.
 796 No it's not good for the following day...
 797 But at the time,
 798 BELL
 799 Well, gosh. (pause) Quite a good way of doing it really isn't it.
 800 Yeh!
 801 A lot of context isn't there?
 802 Where do I go, clockwise?
 803
 804
 805
 806
 807

Commented [CE109]: Satisfaction expressed about 'way of doing it'. He's been able to ask a number of questions.

She remarks and asks no questions of his data. Little chance to look at it and reflect on it.

Challenges of analysing data as well as performing it.

808 Date7

809
 810 Hi!
 811 Hello! How are you?
 812 Good thank you.
 813 It's [Girl's name] isn't it?
 814 Yeh,
 815 Hey [Girl's name] how are you?... Ed?
 816 Do I give you mine?
 817 Yeh!
 818 Yeh, so we can have a look...
 819 Oh, how many stuff!
 820 I kind of just drew stuff, you know, I made it
 821 up. I made it up as I went along?
 822 What about that? It is the first time that I..
 823 That is multiple indices... correlative...
 824 diagram, that looks at seasonal change, in
 825 relation to working hours, dating capacity,
 826 what else did I put on there, ease of waking in
 827 the morning, and regularity of sex.
 828 Awwwww (laughter).
 829 I was interested in the correlation between
 830 those four different thing, correlatory
 831 conditions.
 832 Are you doing your studies related to that?
 833 No I did mine 4 years ago, in architecture. But I
 834 should do. But I thought it was interesting to find
 835 that the mean time was probably like, middle to
 836 end of summer, really, that's like the best time. Of
 837 life generally! It's like August/September, those
 838 kind of times, not too hot. You're moving into the

Commented [CE110]: Offering his data.

Commented [CE111]: Compliment - you write lots of data.

Commented [CE112]: Downplay - I just drew it. It's made up.

Commented [CE113]: Asking for clarification on graph.

Commented [CE114]: Long, and overelaborate explanation of complicated graph - comparing lots of factors.

Which he wanted to present/have conversation about.

Commented [CE115]: Now presenting a conclusion - summary - take home from that data.

839 kind of sort of autumn.
840 Right like, say life satisfaction.
841 This is kind of like a life satisfaction correlative
842 diagram. Yup, hours worked...
843 Hours worked is less during August... what else?
844 What else... what more? There's more sex in
845 August, you know that's the good thing.
846 Generally it's a warmer time, you know, it's a
847 little bit nicer. I think there's an interesting
848 correlation there.
849 You think the amount of hours dedicated to work, you think the amount of hours dedicated to
850 sex, is your life satisfaction?
851 Exactly, Yeh!
852 Fantastic I like this theory!
853 So this whole thing could be a life
854 satisfaction diagram I think.
855 Ah huh.
856 I'd like to also plot onto it coffee consumption within
857 that too. Because I think coffee consumption kinda
858 like goes down here and then goes way up here.
859 Are you not drinking coffee in the summer then?
860 Not so much, but in winter I drink tons of it.
861 But I also teach architecture, and I find I
862 had to drink two cafetieres of coffee a day
863 to get through the teaching.
864 I see.
865 So you could plot that largely.
866 Fantastic, I really like that. How do did you erm, I mean recorded it?
867 Oh I didn't, I made it up.
868 Yes, yes. It's fantastic.
869 I completely made it all up. I think the only thing
870 I actually recorded, because my phone was so
871 crap and so old, that I could only install one
872 sleep app for a few hours, on Thursday and
873 Friday of my sleep time, which I discovered
874 actually, I'm not too bad. I'm getting like 40 to
875 50% of my daily sleep cycle.
876 Ah fantastic, yeh.
877 That's alright right?
878 Even if we are sleeping for less?
879 What about Saturday and Sunday?
880 We'll see. Tomorrow, I'm going to record it tonight.
881 [crosstalk] just last week... I invented it.
882 Work work work work work [laughter]
883 Work work work [laughter] Out out out out
884 Out out out sport out. What does out out...
885 that's quite general, that needs to be more
886 defined.
887 Yes.. you are right.
888 Is that like going out?
889 Yes. This was my [average?] week, like I should do
890 that for the last week. I will be going out I guess?
891 I dunno, are people going out after this?
892 It seems like they should do, you know?
893 Yeh.
894 [ANON] exactly ok. We need to ask our
895 researchers to take us out and buy us a

Commented [CE116]: Offering another way to sum up.

Commented [CE117]: Now conversation to explore this suggestion – test it out.

Commented [CE118]: Further agreement about what graph could be about.

Considerably ambiguous as it is.

Commented [CE119]: Other data I'd like to add.

How to improve it.

Commented [CE120]: Several follow up questions from Simona.

Commented [CE121]: Questioning means of recording?

Commented [CE122]: Confession – made up.

Commented [CE123]: Pointing to 'actually recorded'.

Justifying lack of recording through poor tech.

Commented [CE124]: Seeking agreement/comment on his sleep data.

Commented [CE125]: Reading out her data.

Commented [CE126]: Plays along, continues reading with him.

Commented [CE127]: Critique – demanding more detail – playfully.

Commented [CE128]: Seeking detail with question.

899 pint...
 900 (laughter)
 901
 902 So you have a high coffee consumption?
 903 Yes –
 904 I think mine probably equates to similar
 905 actually. Apart from that zero, because I
 906 make my own normally at the weekend.
 907 Yes? What's the difference between the
 908 one you drink at weekend and one you
 909 drink outside?
 910 Well I suppose I should have determined
 911 that as coffee spend out of house. So like in
 912 cafes, probably a lot of money, Far too
 913 much money isn't it?
 914 Yes, [after Monday and Tuesday?]
 915 , well I'm tired, so I'm going to
 916 have coffee every time, and every
 917 where. Also at home.
 918 Tea though, occasionally you have a little
 919 cup of tea though?
 920 Not so much? Compared to the English
 921 one probably?
 922 Saturday and Sunday for alcohol? You drink
 923 on a Sunday. Hmm...
 924 Sunday lunch? You don't have a glass of
 925 wine while you are having your Sunday
 926 roast?
 927 I don't classically have a classic Sunday
 928 roast. It's not such a kind of classic thing.
 929 Yeh, could be. More Italian related.
 930 Maybe.
 931 Thank you very much
 932 That's a pleasure! [laughter] thank you very much
 933 as well! Good bye.
 934 Good bye.
 935
 936 =====
 937
 938 DATE 9
 939
 940 Hello!
 941 Hi! Do I have to pretend I don't know you,
 942 and only know you through your data?
 943 That would be quite good.
 944 Pretend like - Hi I'm [GIRL]
 945 Hi, [BOY].
 946 Nice to meet you. (laughter)
 947 I'm er... my walking pace is about 4 miles an
 948 hour, I have a shoe size of 11
 949 Mine's is... slow.
 950 Slow! Slow miles an hour? Is that technically
 951 a mile an hour in the UK?
 952 I had no idea how to measure my walking pace.
 953 What's your hair length?
 954 20cm...
 955 I put 7, you think that's massively
 956 underestimating?
 957 Overestimating, I thought about 4!
 958 My ring size is 4, but I don't know what that means.

Commented [CE129]: Question – transmitting judgement on data.

Commented [CE130]: Comparing + empathising – I'm probably the same.

Commented [CE131]: Realising need to define data slightly differently.

Commented [CE132]: Follow up question – tea not in data.

Commented [CE133]: Judgement – you drink on a Sunday.

Commented [CE134]: Defence with context of Sunday roast!

Commented [CE135]: Further context – I'm Italian.

Commented [CE136]: Playfulness – lets just talk through data.

Commented [CE137]: Repeating his data out to her – identifying himself through mundane/bizarre data.

Commented [CE138]: Self-comparison on same data point – walking pace.

Commented [CE139]: Amusing use of ambiguity.

Commented [CE140]: Defence – I didn't know how to measure.

Commented [CE141]: Asking her data – before telling his.

Game of going through top line of stats/data.

Commented [CE142]: Seeking clarification on his data – did he estimate wrong?

Commented [CE143]: Admitting not understanding his data.

959 I just have a EU ring size.
 960
 961 **Are we meant to switch it?**
 962 If you want. Probably easier. Now that you get to see my data!
 963
 964 **I want to see your data! Absolutely!**
 965 **Lunch, salmon, Prêt Prêt Prêt Nudo.**
 966 **Home. Saturday Sunday. Don't treat**
 967 **yourself?**
 968 Er, Not this week, sometimes.
 969 **Steps 2101. Monday was a slow day. What**
 970 **happened with Monday?**
 971 Well, I do, I don't know, I made some of
 972 this up. I do cycle into work sometimes.
 973 So, like for example, this is going... this
 974 actually going clubbing on Saturday
 975 night, which is rolling over to Sunday
 976 **And a regretful Sunday. So clubbing, you**
 977 **didn't dance that much?**
 978 Well I danced past midnight.
 979 **So that went into the next day. But then... so**
 980 **oh ok. Actually you did like... oh so hang on**
 981 **that's 12000, shit right! Oh wow. Fuck,**
 982 **really?**
 983 Yeh, that's a lot.
 984 **My god! Good clubbing!**
 985 Well, and some walking in the next day I imagine.
 986 **Three things you would like to record...**
 987 **your intercontinental ballistic missile**
 988 **profile bombing from Glasgow (laughter)**
 989 (laughter)
 990 **Why would you want to bomb... America.**
 991 To bomb America, Europe and Scandinavia...
 992 **Is that ok, do you need to do that? That's**
 993 **a bit worrying.**
 994 Very worrying, I'd say. (laughter)
 995 **Maybe talk to someone about that.**
 996 **What's this, this is your intake. Chocolate?**
 997 Chocolate.
 998 **Really? good god your healthy!**
 999 **Really not true this week.** Especially since my parents sent me a christmas, advent calendar,
 1000 things as well.
 1001 **Is this coffee, and German Cafe as well?**
 1002 **What's the difference?**
 1003 Just like going to the cafe. I don't drinking coffee here or going to the cafe. More like having a
 1004 break, and having a cappuccino.
 1005 **Nothing move on.**
 1006 Quickly grabbing it on the way.
 1007 **Cycle to work, Monday, you cycled, Tuesday,**
 1008 **Wednesday, Thursday, not Friday.**
 1009 Because I was going out yesterday.
 1010 **Where do you live?**
 1011 Sandyford. I can walk.
 1012 **Pretty close. Diet coke, you have a diet coke**
 1013 **habit. I have one of them as well.**
 1014 **I used to have a worse diet coke habit when I**
 1015 **was living in London. Because I'd always go**
 1016 **past newsagents so I'd buy a Diet Coke in the**
 1017
 1018

Commented [CE144]: Prior to this talking from his own profile to her.
Initiating/enforcing switch was really important in how dates went.
Probably more questioning rather than presentation.

Commented [CE145]: Repetition then judgement/question – you don't x?

Commented [CE146]: Repetition judgement question.

Commented [CE147]: Can't answer exactly – because data partly made up.

Pointing out odd feature of her data – highlighting clubbing.

Commented [CE148]: Realising he has misread-misinterpreted data.

Then questioning again – really?

Commented [CE149]: Turned around to compliment clubbing – 'good clubbing' – judged by high number of steps.

Commented [CE150]: Wilful misinterpretation – as joke.

Commented [CE151]: Refuting a compliment on health with – data not true. Really not true.
 Introduce example – parents sent me advent calendar.

Commented [CE152]: Question to articulate difference.

Commented [CE153]: Continued pattern of repetition – judgement.
 Then empathy with personal example then question.

1019 tube station on the way and sit on the train.
1020 Mines is worse here. Some of them
1021 are not just one...
1022 Really.. you need to have more quantitative data!
1023 (laughter)
1024 January, Christmas, these are where you're
1025 going, you've been?
1026 This year yeh. That's [PLACE]
1027 [PLACE] in Cornwall? Very beautiful place.
1028 Yeh, not got to see very much of it. [ANON]
1029 In [PLACE]?
1030 Yeh at the University or the College there.
1031 Oh, College of Art?
1032 So we were on campus [ANON] so we only got to see very little.
1033 Exciting.
1034 22nd, what happened here? That's bad.
1035 [ANON].
1036 What's that?
1037 [...] Like everything is targeted towards
1038 that [...] which means like everyone's
1039 sleep pattern goes downhill...
1040 Good reads! Alright - Invisible Cities...Hard
1041 Boiled Wonderland and...
1042 The End of the Worlds, Moore Carney(?)
1043 Oh right, I've only read his popular books...
1044 Norwegian Wood.
1045 Yeh, but this one is quite surreal.
1046 BELL
1047 Are we meant to move? We've only
1048 talked about you [girl]!
1049 [Crosstalk!]
1050 How one sided!
1051 I know you've spoke too quickly, that
1052 you're not letting me read!
1053 Well I dunno, you just have to answer that, that's fine.
1054 So self-oriented.
1055 You might want to go that way...
1056 I think I should present yours
1057 Well you know it better now!

1062
1063
1064

Commented [CE154]: Admitting hidden detail in data.

Commented [CE155]: Working out a diagram - offering suggested explanation.

Commented [CE156]: Picking out low point of graph - seeking explanation.

Commented [CE157]: Never took in his data under his questions.

Commented [CE158]: Teasing.

1065

Date 9

Hello!

Oh really? I'm gonna take that as...

Thankyou!

Instead of going on holiday to somewhere exotic, I decided to take, I've got a Scooter, and drive to [PLACE].

You scooted around Wales! And to [PLACE] that's brilliant. And back again? I can imagine the trip - you stopped off on lots places on the way back to?

Yeh, I stopped there, Aberystwyth, stayed overnight, and then went down to [PLACE]

Ahh.

That's where I'm originally from.

You sound a bit...West Country.

Yeh! So it was like kind of my trip to myself really.

Aw that's nice. How long did it take you to get there? Was that one day...

That was one day -

One night and then...

Yeh. It wasn't long, I was taking the long route because I wanted to. It was more of a holiday.

That's nice, aw.

Unfortunately my holiday to Jamaica fell through so...

Ooh, so it was a scooter holiday to [PLACE]

Yeh, pretty much.

I was supposed to go to Colorado this year, that fell through, so I ended up going to... the South of France instead.

Oh right, well, that's, that's good!

It's not bad, It's not quite Colorado...

But it's still nice.

Bristol's not quite Jamaica, it's not bad.

Ah! You're the one that wrote '100% analogue data'

(Laughter)

(Laughter)

Yeh, I didn't use any apps to do any of this.

Ok.

Presumably this is an app thing..

Yeh, Fitbit.

Yeh, so I was ill that weekend, and usually that's up here. But basically this is like.. [crosstalk - when I play volleyball]

Like this weekend, or this weekend. Ah, this weekend's... middling though.

It's not too bad. I didn't play volleyball then, this one I played volleyball, it's usually up here. So yeh, you get kinda, Wednesday, Saturday, Sunday it's like usually really high.

Ok... wow, where did you travel to?

That's... Dunedin, in the south of the South Island in New Zealand. Furthest away that I've been.

Wow, yeh, that's a long way.

That is quite a long way,

Commented [CE159]: Teasing presentation – all true!

Commented [CE160]: Recognising profile from previous exercise.

And a compliment.

Commented [CE161]: Attention to location timeline – then question on it.

Commented [CE162]: Comment – then referring to data- a follow up question – 'and back again'.

Commented [CE163]: Continued exchange of travels/holidays.

Commented [CE164]: Recognition of profile – an unusual element.

Commented [CE165]: Pride in not using any apps.

Commented [CE166]: Contrasts with his data – questions if it's an app.

Commented [CE167]: Answers question – then expands of his own accord.

Adding lots of context and a story, to explain why in his mind, his steps are lower than they should be.

Commented [CE168]: Joining in with his explanation – making statements/judgements of the data.

Commented [CE169]: 'It's usually' – appealing against data – it's normally better than this.

Forcefully putting across an explanation for lower steps – even though she is unlikely to have recognised this.

Commented [CE170]: Expresses surprise – then asks question from ambiguous data of distance travelled from home.

Commented [CE171]: Agreement about data through mutual repetition.

1125
1126
1127 I just looked at your heart rate and thought that was the furthest away that you'd travelled.
1128
1129 82 miles!
1130
1131 Bristol's further away than that!
1132
1133 Ok, 5 thousand, 5 and a half thousand miles - where's that?
1134
1135 Ooh, wow, I've never been to San Diego, what's that
1136 like? Why were you there?
1137
1138 I was there for a [...], and... it was quite
1139 nice. I've done so much stuff around
1140 America, but that's the furthest I could find,
1141 so I kind of went like that.
1142
1143 Mmm... San Diego sounds quite a lot of fun.
1144
1145 [Someone from the Crypt(?)] is from San Diego.
1146
1147 They're a good band. Yeh.
1148
1149 (Laughter)
1150 And I'd like to do the.. what the road, up from San Francisco to San Diego
1151
1152 Oh Route 66?
1153
1154 Is that Route 66?
1155
1156 No, that's not Route 66.
1157
1158 No, Route 66 is across,
1159
1160 Yeh that's across..
1161
1162 What's the one.. there's one up the coast there
1163
1164 I can't remember what it's called, but it
1165 goes (SF, SD etc)
1166
1167 Yeh I can't remember what it's called now.
1168
1169 [Rent a car]
1170
1171 It's been so long now since I've been there.
1172
1173 [Headscarf on]
1174
1175 Gotta ride it on a motorbike!
1176
1177 Or do it on a scooter!
1178
1179 Exactly!
1180
1181 LAUGHTER
1182
1183 So you wear a lot of black, or a lot of Navy Blue? Not navy blue now!
1184
1185 I know! It's been a week, it's been a week of, it's been a working week that's the thing. It's
1186 Monday to Friday so this is like work clothes. But even on the weekend, I probably wear like
1187 jeans or something, still blues and blacks.
1188
1189 I dare not put that, because mines would be basically, black or white, maybe a bit of
1190 grey.
1191
1192 Just black and white, and some grey!
1193
1194 Yeh maybe a bit of grey.
1195
1196 (pause - reading data)
1197
1198 Oh and you've got Minneapolis as well. I've never been.
1199
1200 You not been?
1201
1202 No.
1203
1204 Oh it's incredible. It's one of those cities that,
1205 no one normally goes to..
1206
1207 No, that's the thing. Minneapolis what's there?
1208
1209 It's incredible. So that's where
1210 Prince was born.

Commented [CE172]: Realised misinterpretation.

Turned to a joke.

Commented [CE173]: Reciprocating his question of distance travelled.

And then follow ups.

Commented [CE174]: Pointing out a contrast in the data – you're not wearing what the data says.

Commented [CE175]: Explanation of and making sense of data.

Commented [CE176]: Avoiding displaying some data – because it would be boring or uniform.

1185 Oh yeh of course, but it's quite northern and cold?
1186
1187 **And it's got his own club there, and**
1188 **it's like... it's amazing.**
1189 It's a really good place to make music
1190 because nobody else goes there!
1191 **Yeh. (laughter)**
1192 Brilliant.
1193 **Ok, cool, thank you.**
1194 Excellent.
1195 **Cheers,**
1196
1197
1198 **Date 10**
1199
1200 **Hello!**
1201 Hello, how are you?
1202 **How you doing?**
1203 Good.
1204 (Pause)
1205 **(Laughter)**
1206 Have we started yet?
1207 **I think so yeh - the recorder's going so..**
1208 Ok.
1209 **BELL**
1210 Oh we have. (pause) Shall we swap?
1211 **Yeh go for it.**
1212 Mine's not incredibly interesting...
1213 **(Laughter)**
1214 I did it in a bit of a rush.
1215 **Ok.**
1216 So when you were saying earlier I wouldn't
1217 record what I ate everyday because it's
1218 boring and that's not me... and I feel like
1219 that's very very boring.
1220 **(Laughter) Do I say it out loud??? (Laughter)**
1221 I'm kind of annoyed about it, I would kinda, not pride myself, but I really love cooking. And I
1222 love... cooking different things everyday. And this is not a typical week...
1223 **Yeh! (laughter) You say that.. and then I'm looking down and going, huh, Quinoa salad**
1224 **everyday, soup everyday, wow! Ok.. this looks really... fun!**
1225 Uninteresting! I'm not really selling myself too well.
1226 **Ok so.. so point me to something that's really interesting? Ooh rum cocktails - now I'm**
1227 **interested! Ok tell me about rum cocktails. A few! (Laughter)**
1228 Yeh I know, I don't want to count them!
1229 I had a really nice cocktail at the weekend, because I was in Liverpool.
1230 But it wasn't rum it was whisky, And it was called the Roses Tree, so I
1231 nice Irish one, with Jameson's whisky obviously! One of the nicest ones
1232 out there. But it was erm... Jameson whisky and like Rose syrup, so it
1233 was a bit like, Turkish delight so it was beautiful.
1234 **Ok! I love a cocktail, I like my cocktails a lot, so...**
1235 Have you got a favourite one?
1236 **Ok, this will sound really crap, but I love**
1237 **Cosmopolitans. But I was...**
1238
1239
1240
1241
1242
1243
1244

Commented [CE177]: Not sure how to start until bell.

Commented [CE178]: Immediate downplay.

Commented [CE179]: Admitting/fronting up to her 'boring' data.

Commented [CE180]: Unsure response to this.

Commented [CE181]: Frustration that her data doesn't represent her true interests in food.

Commented [CE182]: Appealing to say that this is not typical of her.

Commented [CE183]: Meta reflection on how she is underselling herself.

Commented [CE184]: Inviting her then to highlight best of her data.

Commented [CE185]: Before picking up on a detail himself.

Commented [CE186]: Amusement and ambiguous 'a few' number of cocktails.

Commented [CE187]: From this point - entire discussion about cocktails.

Data either not required or not relevant/of interest - not a resource any longer for this conversation.

1245 Vodka,...cranberry?
1246 **Vodka, Cranberry and Triple Sec or Cointreau. I was drinking**
1247 **it before Sex and the City. So everyone was like oh, sex and**
1248 **the city! No! I was drinking it before that!**
1249
1250 Aw, they're nice. But you tend to get them in Martini glasses.
1251 **Martini glasses yeh.**
1252 But we were saying earlier that's really awkward eh? So delicate.
1253
1254 **Got be up, kinda surfing the crowd - oh no no! I also like espresso martini's.**
1255
1256 They're very nice. They're easy to drink though so a bit dangerous.
1257 **Yeh very dangerous.**
1258
1259 I like an espresso martini, I don't know what my favourite cocktail would be? The place I was
1260 telling you earlier, near central station, they do like a maple bourbon or a maple whisky or
1261 something, and like a tumblr, with this big thing of ice. You know one of those little, flip top
1262 glass bottles with it, like a little kilner bottle with it. But they fill it with smoke, so they've got
1263 like a little bit of wood. But your meant to... you pour the bourbon over the glass and it makes
1264 it really smokey.
1265 **Wow, that sounds amazing.**
1266
1267 **There's a place called the alchemist, which do a**
1268 **smoky old fashioned, and they have an old**
1269 **fashioned drink, and smoke it into it. Incredible.**
1270
1271 I like that... it's kind of... good skills there to make a nice cocktail.
1272 **Absolutely.**
1273 So where's the Alchemist? Is that a bar?
1274
1275 **Oh yeh, the alchemist is in [PLACE] which is where I work, where I live.**
1276
1277 Don't think I've ever been to Manchester... (missing end audio).
1278
1279

1280
1281 **Date 11**
1282
1283
1284 **Hello!**
1285 Hello!
1286 **Here you go! Here's all the data about me!**
1287 Oh fantastic, how great! This is mine.
1288 **Ok!**
1289 Aw this is the [something].
1290 **Thankyou.**
1291 What did you draw here?
1292 **Does it mean anything to you?**
1293 Hmm..No...
1294 **Well I was kind of like interested in tracking your dreams**
1295 **and ideas. Tracking... not tracking, but understanding**
1296 **your forms relationships. And my power usage generally.**
1297 **So not just like your... things that are plugged into the**
1298 **wall, but also your phone and things like that, so you can**
1299 **understand your impact on the environment.**
1300 So you're tracking...
1301 **That's kind of things I would like to track.**
1302
1303 **What about that?**
1304

Commented [CE188]: Slight mocking of completeness of profile.

Commented [CE189]: Straight question – what's the drawing?

Commented [CE190]: Inviting her to first offer an explanation.

None offered, then he explains.

Commented [CE191]: Further open question – what's that?

1305 Oh, so this is, I can't remember now. Oh yeh hours slept.
 1306 Deep sleep hours. And then work hours.
 1307 How do you record it, I mean do you..
 1308 Yeh I use a thing called SleeponAndroid. I track on my phone, my phone and my
 1309 watch. So... it kind of knows when I'm sleeping, when I'm not sleeping.
 1310
 1311 Can I ask you, why are you interested in that data?
 1312 Oh (laughter). I can tell you why... because I sleep really badly!
 1313 Oh so you monitor...
 1314 Yeh. Because if I, I mean like what's it, 5.9, you know, 8.2 that
 1315 was good. You're meant to get 8 hours of sleep, but I'm
 1316 getting way below that all the time.
 1317 Ok. And also the deep sleep, is the key thing, you're meant to get
 1318 quite a lot, I don't. I get very restless sleeps.
 1319 So I see, alright. What about that?
 1320 Oh erm... Oh. That's how many... so I use my calendar a lot. And this is
 1321 how many times people have accepted stuff in my calendar, and others
 1322 who haven't. Google tracks that, so I thought I would put it in there.
 1323 Fantastic(?)
 1324 Recently watched TV, because I track that, I track media
 1325 consumption, and recently watched films.
 1326 Hmm. Interesting. Apple, Manchester..
 1327 Yeh. Oh what is that?
 1328 The places where you have been recently?
 1329 Yeh, that's right.
 1330 [PLACE], alright. What about that?
 1331 That's my steps, I use a Fitbit so it tells me how many
 1332 steps I have taken. So generally... it's usually about
 1333 this kind of space. So I ride to work, it doesn't track
 1334 that. But when I'm doing volleyball it's usually about
 1335 this.
 1336 So you're doing volleyball once a week?
 1337 No I do it Wednesday... I was ill this week.
 1338 So I do it Saturday and Sunday.
 1339 Twice a week.
 1340 Nope, 3 times week.
 1341 Right, on the contrary, my one, not so accurate.
 1342 Italy!
 1343 I'm coming from Italy. And thanks to Facebook, I've realised
 1344 that in the last year, I've been living in 4 different countries.
 1345 Oh, ok wow.
 1346 Now it's December, when I'm going to go for Christmas. And
 1347 then Denmark... and then I arrived here.
 1348 BELL
 1349 Ok. (missing end)

Commented [CE192]: Questions about how data recorded.

Commented [CE193]: Deeper question – not of data itself, but why you're interested in it.

Commented [CE194]: Making his argument about why he tracks sleep through the data – which demonstrates his poor sleep.

Commented [CE195]: Something of an overstatement, despite some data showing he has on occasion enough sleep.

Commented [CE196]: Unsure answer – how to present this appropriately.

Commented [CE197]: A guess at his data.

Commented [CE198]: From steps data – tells a few stories/details:
 - what's normal
 - what's missing
 - high step activities (volleyball).

Commented [CE199]: Pointing out what isn't tracked.

Commented [CE200]: From what he says, asks a follow up question which includes a deduction from data that he does volleyball once a week.

Commented [CE201]: Contrasting her profile on it's accuracy.

Little time to discuss her profile – asking many questions of his.

1359 DATE 12
 1360
 1361 Hello.
 1362 Hello.
 1363 Here you go.
 1364 Here you go.
 1365 Thankyou!
 1366 (Laughter)
 1367 (pause...)
 1368 Wow, get a real insight into you now!
 1369 Well, who knows right!
 1370 (pause)
 1371 M&S? Oh lunch, yeh lunch.
 1372 Yeh.
 1373 That's quite a lot of steps.
 1374 So you've slept quite a lot hours recently.
 1375 Yeh but not that great, you're meant to sleep 8 hours a day.
 1376 Ah deep sleep hours.
 1377 That's also the big problem.
 1378 Ok... pasta.. italian, mexican... Ah.
 1379 (pause)
 1380 Ah.. dirty dancing!
 1381 Yeh... sorry!
 1382 100 times! Do you do like, do that whole like....
 1383 No!
 1384 (Laughter)
 1385 Aw Amelie's great.
 1386
 1387 I wasn't sure if it was like all time favourite films, I'd probably have to say Dirty Dancing
 1388 because I've watched so many times as a teenager. But I love Cloud Atlas actually. I've not
 1389 read the book, have you read the book?
 1390
 1391 Yes. I was actually gonna put it down as. I've read the book and I was really confused,
 1392 then I watched the film and I was like 'oh my god I get it now!' I do get it a lot more.
 1393
 1394 You would like to track your weight, hot drinks and your distance, where you go?
 1395
 1396 Yeh.
 1397 What's, is this?
 1398 Oh, I would like to track my dreams, which I have done in the past. It's
 1399 dreams and ideas, it's not, I haven't done it for a long time. Track my
 1400 relationships, about not just... like people that I know and who they
 1401 know and stuff? I dunno, I find it interesting. And I would like to track
 1402 my power usage, like the impact of my phone and use of, my tablets
 1403 and stuff like that. I'm interested in the overall impact on the world.
 1404
 1405 Yeh, yeh.
 1406 You know.
 1407 Probaby, not something we want to know really.
 1408
 1409 So how much of this is real then? South Africa? Is this real?
 1410
 1411 This is my year, this year of travelling.
 1412 Oh you, this is interesting, you did that to there,
 1413 because I did mine there. Mine's, that's one trip.
 1414 This is basically the year. I was in
 1415 [PLACE] for New Year. And then here.
 1416 Where in South Africa were you?
 1417 Erm my [family member] lives in [PLACE] so I visited
 1418 [them], then we went to Cape Town for a bit for a

Commented [CE202]: Exchange over how much the data really tells about someone.

Commented [CE203]: Answering his own question.

Commented [CE204]: Judgement on his sleep.

Commented [CE205]: Disputing her judgement – quoting a norm of 8 hours sleep, in contrast to his data.

Commented [CE206]: Repeating data back to her.

Commented [CE207]: Apologising for data – embarrassing movie.

Commented [CE208]: Confirming his understanding of her data.

Commented [CE209]: Reciprocal question of his drawings.

Commented [CE210]: Questioning the veracity/reality of her data.

Commented [CE211]: Comparing way they used the space on the profile.

1419 week. And then Johannesburg. So yeh, it's good.
 1420 **Nice.**
 1421 Unfortunately they are moving back, so that's a shame.
 1422 **I should have done that, shouldn't**
 1423 **I? I've got all that stuff.**
 1424 You've got a lot of yes on here!
 1425 **Yeh...**
 1426 It doesn't say how many events you applied for though, it's a lot.
 1427
 1428 [...]
 1429
 1430 **This is interesting... (laughter)... this is very interesting. I'm not even gonna. I**
 1431 **was trying to.. I was gonna rip.. I was gonna take that off the thing... Now it's**
 1432 **there.. I don't know what to say. So I'm just gonna leave it alone.**
 1433 **So is this visitors...**
 1434 **No that's nothing to do with that.**
 1435 I just wrote some facts down I got from OkCupid.
 1436 (pause)
 1437 **Don't delve too deeply into it (laughter).**
 1438
 1439
 1440 Lot of steps some of these days.
 1441 **Yeh this was when I was ill. And this weekend before I**
 1442 **was pretty ill. I usually play Volleybal, it's usually**
 1443 **about this kind of level. Usually it's up here.**
 1444 **How much is that? It's like 12..**
 1445 **Yeh, it's a lot of steps. But yeh you know, because I**
 1446 **was ill, especially here, I was just lying in bed.**
 1447
 1448 Yeh, I think I've just got steps as a number. There's a day I think where...
 1449 I cycle as well so I guess I don't always..
 1450 **BELL**
 1451 Cool. It's a bit short isn't it.
 1452 **You know what, usually you get like 3 minutes. So literally**
 1453 **I've got to make the impression and then leave it.**
 1454
 1455 You've done speed dating before?
 1456 **Yeh I've done speed dating a lot, let's not even**
 1457 **go there! (laughter)**
 1458 But is it different when you have something you share?
 1459
 1460 **Yeh, because usually you just go in cold and there's nothing, you know,**
 1461 **you just literally going in. You can do the whole 'Hi, my name is such and**
 1462 **such, and all that kind of stuff...'**
 1463
 1464 You probably get more from something like this, where you go like... you jump into
 1465 someone's...
 1466 **You do. But I tell you what, I'm gonna be honest yeh, when we sat**
 1467 **down, it was too easy to look at the graph, and try and look**
 1468 **through it all and find something, and then pull that out. Where**
 1469 **it's quite interesting, but because everyone is making different**
 1470 **assumptions about different things... there's not anything.. oh**
 1471 **yeh there's a recorder going. It's too easy to get stuck into the**
 1472 **data and not about the person. Does that make sense?**
 1473 Yeh yeh.
 1474
 1475
 1476
 1477

Commented [CE212]: Feeling of data he should have shared – having looked at hers.

Commented [CE213]: Noting some data missing.

Commented [CE214]: Dealing with inquiry about a part of his data he absolutely doesn't want to talk about.

To extent admits he was going to hide it.

Response is to leave it alone – say nothing.

Commented [CE215]: Bettina offers a question/explanation.

He denies.

Asks her not to look too closely.

Awkward laughter.

Commented [CE216]: She compliments high number of steps some days.

He responds with same story about illness – usually playing volleyball etc.

Commented [CE217]: Asks 'how much' – begins answer.

Then he replies with categorical 'it's a lot'.

Commented [CE218]: Comparing her numerical (rather than graphical) representation of steps.

Commented [CE219]: Suggestion that the way data supports conversation it can be 'too easy'. You can talk more about the data than the person.

1478 **Date 13**
1479
1480 Do you not want to come over and talk to me [Boy's Name]?
1481 **Ah yes!**
1482 Hello!
1483 **Hello!**
1484 How's it going?
1485 **I dunno, I didn't read the small print, did you**
1486 **read this before you came?**
1487 No, I only filled stuff in.
1488 **Well it should have really said - 'Hey Dumbass,**
1489 **everybody's actually gonna see this so put**
1490 **something interesting...**
1491 Yes it should have said something because...
1492 (pause)
1493 Oh man...
1494 **I only get 20pt text which says 'Hey Dumbass' at**
1495 **the start and then I'm kinda clued up.**
1496 It's been like everyone who comes round 'before
1497 you look at it, I'm going to apologise because
1498 mines is incredibly boring because I did it
1499 yesterday really really quickly.
1500 **I did mine today.**
1501 I think a few people did their's today...
1502 **And it looks like I drew it with crayon.**
1503 **Let's swap.**
1504 Yours is... it's detailed!
1505 **It's not!**
1506 I like it, there's a lot to look at.
1507 **Reservoir Dogs is such a good film, I haven't seen it**
1508 **in ages. I've seen it once, and I liked it.**
1509 Oh, I think it's probably my favourite movie, and I
1510 can't even remember why it is. I saw it in HD,
1511 which was awful. Reservoir Dogs needs to be
1512 shadowy and grainy and but yeh..
1513 **Well I saw it on VHS... unless I'm imagining that.**
1514 **It's quite old isn't it?**
1515 Although I don't know who it was... one of the guys here hadn't
1516 seen Reservoir Dogs and I was like are you serious? What!
1517
1518 Aw Amelie - that's meant to be one of the nicest movies ever.
1519 **It's nice.**
1520 I've watched half of it, and I started to fall asleep. And I
1521 never watched the rest, and I should.
1522
1523 (pause)
1524 **Red Wine!** If I saw this I would have known that was yours!
1525 **Really! Oh no!**
1526 Well you like Red Wine..
1527 **I do, it's embarrassing.**
1528 No, I do as well.
1529 **So how long is a beard a beard? When is the cut off point?**
1530 Like too long...
1531 **When does it become a beard, and when is too long?**
1532 I don't know the beard can ever be
1533 too long, it will always be a beard.
1534
1535 **Yeh...**
1536
1537

Commented [CE220]: Mutual conversation about how they both feel underwhelmed/unhappy with their profiles which are boring or not as they would like them.

Commented [CE221]: Denying her compliment of detail.

Commented [CE222]: Sense that she would have recognised this as Gavin from his profile.

To his surprise.

1538 I dunno when it becomes scruffy looking and a bit ridiculous. I kind of just noticed that with
1539 myself being on Tinder, if he's got a good beard, regardless of anything else, which is terrible!

1540
1541 What's apple health?

[...] And I thought this is days I've actually collected.
And Apple Health tells you how far you've walked,
amongst other things.

Commented [CE223]: Questioning an axis on the graph.

1542
1543 Well that's interesting.

1544
1545 Well you walk everyday.

(pause) Is it?

Commented [CE224]: Little interest in this – letting her make statements on his data.

1546
1547 That's good.

Yeh..

1548
1549 I kind of considered getting one of those Fitbit things. Because I would walk in everyday with
1550 Seb, usually before he started cycling. And he would have a Fitbit on I think, [someone] got
1551 one when she started going to the gym and stuff. But they're bloody pricey, and I thought I
1552 don't really care enough to get one.

Commented [CE225]: Comparing to her own thoughts of using a FitBit.

Are you on your phone now?

1553
1554 No my phone's still working, but I don't really have a
1555 very high data allowance so I don't want to use it.

1556
1557 (pause)

1558 I like this Crows - is this like activities that you've done?

1559
1560 It's like [ANON] said, it could be like... that would have been far more interesting with
1561 the number of crows you had seen. That's very true.

Commented [CE226]: Passing on someone else's comments on his data.

1562
1563 I would do this again, if knew we would
1564 all be here discussing it in a dating...

Commented [CE227]: Desire to redo her data.

I think that's maybe the point isn't it?

1565
1566 So is this live music I go to?

Yeh there's a place where I live. where there's buskers
on Wednesday, and pre-arranged acts on a Sunday.
And I do [something?] at the end of my street.

1567
1568 BELL

Commented [CE228]: Continuing on conversation well past bell.

1569
1570 Is this a week here?

No, it's more options. But I do go at least one a week.

1571
1572 Yeh lie in's and alcohol!

Yeh lie in's is a strange one, why is no one
else talking about lie ins!

Commented [CE229]: Data is representative – options of what he could, and sometimes does do, rather than what he does do exactly.

1573
1574 Yeh I should have put that on. I
1575 don't ever ever seem to get one.

Commented [CE230]: Feeling others should be talking about/sharing data about lie-ins.

Sorry, the other thing you go for is
funny self-descriptions..

Commented [CE231]: Should have – wished for data.

1576
1577 Yeh, I think I would...

1578
1579 You're meant to move...

1580
1581 I think I would swipe left if people took themselves too
1582 seriously. He's such smooth talker! He doesn't want to move!

Date 14

Hello! How are you?

Good. How are you?

Yeh good. This is erm.. interesting.

It is interesting. It's a bit short, you don't have time even to read the data.

Commented [CE232]: Lack of time to read the data.

Yeh well [ANON] said there is too short - and I was like no it's fine, but I think, maybe a bit longer so if you really wanted to get to know someone. It's like have you been speed dating before?

No.

Neither have I.

No I've not really done any kind of online dating or something like that.

Nothing at all?

No no.

Oh so when people talk about Tinder and stuff like that?

Well I know how it works, I know about it, but I've never really done it.

Oh, I feel like... mines is so boring. Not apologise, but explain.

Well you can explain, I guess that's the point of this.

Commented [CE233]: Downplaying again - but not an apology. More want to explain, put it in context to make it ok.

I dunno if there's much to explain. 'What did I have to breakfast' and it's the same thing everyday.

I saw this one before... I was just, I mean I found it interesting you put in this stuff but it was the same everyday.

Commented [CE234]: Mocking her own boring profile.

I know. I really just felt like I needed to fill this space, and I was being honest I think..

No no that's fair..

Commented [CE235]: Sense of - fill the space in.

As I was saying to [ANON] before, I like to eat quite a varied diet, and I like to cook new things so if that was just a normal a week, I would eat different things every day.

And being honest about what she ate.

Commented [CE236]: A lot of referring to previous dates.

That's funny, we were just talking about it and I was actually saying, I think this person is not interested enough in food for my taste!

Commented [CE237]: Admitting that he had judged her profile - and reached the incorrect conclusion she feared.

Oh no - that's frustrating because I am the complete and utter opposite!

(Laughter)]

Commented [CE238]: Frustration at feeling opposite of what data represents.

It's just because I was away for the weekend, and I didn't go shopping so I thought I don't have any time to buy food, I'm going to eat everything that's in my cupboard.

Commented [CE239]: Giving a story context to explain this data.

Well to be honest I didn't put any food in on the days because they - I wouldn't want what I ate the last week to actually represent me! (laughter)

Commented [CE240]: Admitting that he was in a similar position - but chose not to show it at all.

We were talking about that earlier in my groups, and one of the guys was saying like he wouldn't put that on, what he had eaten, because that's just not me and it's not that interesting.

Didn't want to be held to account by his data - it doesn't show him in the way he wants to. Better to ignore - and then speak of food in his own way.

I guess that is me. Because I really care about food, but sometimes it's just in the hurry, and I feel like I don't want that to be me.

Commented [CE241]: Thinking about 'ideal' profile.

If it was my ideal one, I would probably, on a normal week, it would be the exercise I've done, the food that I've eaten and the music I've listened to. But recently... well you know the [something] in [ANON] it's not like a typical week. I feel very rushed and pushed for time.

Commented [CE242]: Appealing to - this is not typical.

A lot of talk in all dates about establishing normal. Routines. What is usual and unusual. Sharing an opportunity to sense-check/compare - establish norms?

But I suppose we could have like, tried a little bit and glossed it up a bit. But anyway...

Commented [CE243]: Suggestion that it would be ok/better to put a gloss on the data, for this occasion.

1650 You've put rum as well. We've both got rum.
1651
1652 Oh yeh rum cocktails.
1653 I couldn't actually read that, I thought it was
1654 dum cocktails! You had 'a few' last week?
1655 Well because I was away at the weekend, I
1656 had no idea how many I had!
1657 I had no idea how many I had, I just made
1658 them up to be honest.
1659 I like this - days I consumed cake.
1660 (Laughter) We had so much cake!
1661 [ANON]
1662 [ANON] I dunno, people just bring in cakes, and they
1663 don't talk to each other, and we just have so much
1664 cake. I think most days we have cakes for the next day
1665 as well and we just save it.
1666 Well that's good! Well I dunno if that's
1667 good, if it's there you're like woah, I
1668 shouldn't eat that but I want to.
1669
1670 [ANON], I think this is a week where I didn't eat that much cake,
1671 because I had a whole two days without cake. But yeh, I dunno,
1672 maybe I shouldn't put that on a dating profile.
1673 No no that's good.
1674 I think music good as well, music's an interesting thing. I was talking to my mum recently and
1675 she was saying you know, she'd spoken to people recently and they'd just said 'oh, I'm not
1676 really into music'. And we can't get our heads around that. It's just an important, part of ...
1677
1678 I remember I had this discussion once with someone...-
1679
1680 BELL
1681 Well..
1682 To be continued! (Laughter)
1683
1684 =====
1685
1686 Date 15
1687
1688 Hello, how are you?
1689 I'm fine thanks, I'm [BOY] it doesn't have
1690 my surname there...
1691 Is [BOY] your first name or surname?
1692 First name.
1693 Really. What's your surname?
1694 [NAME]?
1695 [NAME]?
1696 [N-A-M-E].
1697 Sorry I thought it was [NAME]! Sounded interesting!
1698 And [ANON], that's a good first name.
1699
1700 Shall we swap?
1701 Yep.. I don't have that much on my profile, so I just did it, and I
1702 apologise I didn't feel like I could cheat much.
1703 No, I felt like I need to apologise for
1704 mine - oh good good! Your's is the
1705 empty one and mine's is the boring one!
1706 (Laughter)
1707
1708 I just thought - I didn't realise we were gonna be doing this, because I work here at culture lab
1709 as well, so I did it here yesterday in work. And I just thought I didn't have very much time, I'm

- Commented [CE244]: Pointing to a similarity.
- Commented [CE245]: Questioning the ambiguous quantity of rums.
- Commented [CE246]: By contrast he made up a number.
- Commented [CE247]: Telling story in general terms - I'm not sure how it happens but..
- Commented [CE248]: Again, setting this in context of what is normal or not.
- Commented [CE249]: Downplaying his profile - lacking in content. Because he just arrived.
But felt compelled to be honest, and not cheat, so left empty rather than make things up to fill space.
How to deal with missing data???
- Commented [CE250]: Mutually mocking their empty/boring profiles.

1710 just gonna put anything on here. And I didn't realise we were gonna be talking to people
 1711 about them and they were gonna be analysed.
 1712
 1713 **Well I don't mind talking to people about my profile and stuff. I mean if I had more time**
 1714 **and I had tracked data I would put it down.**
 1715
 1716 Yeh. Or you would think about something interesting to put on there.
 1717
 1718 **Yeh, But I always see them, it doesn't really give you an idea of the person you're**
 1719 **talking to is, it's more like a, you know, start talking to the person first. It's like a data**
 1720 **point and that leads on to a conversation and something else.**
 1721
 1722 Yeh yeh. Well that's true. I know I was just doing that there... when you were looking there at
 1723 what books that you've read and music you listen too. You just need one thing I think to just
 1724 start a conversation.
 1725
 1726 I know all this, I was gonna leave it blank as well, but aw I'll put something on it.
 1727
 1728 **Are you size 6? I'm gonna guess your height from your shoe size? Am I allowed?**
 1729
 1730 Yeh! (Laughter!) I think I know it. 5'9?
 1731
 1732 No, I'm a bit shorter than that. My feet are kind of in
 1733 between sizes, they're a bit bigger than that! (Laughter)
 1734 **Oh ok. I'm not gonna guess anymore.**
 1735
 1736 Like size 6 and size 7. And I have heels on so I look taller.
 1737 I'm finding these one's quite difficult, like walking pace, and hair length. I don't know and it
 1738 would have taken effort to find it out. I've never watched that one..
 1739
 1740 Aww have you never seen **Reservoir Dogs!** What's it like?
 1741 It's really good! It's a classic!
 1742
 1743 Well do you like Tarantino, well it's a tarantino movie, it's one of his
 1744 earliest ones. Aw man I'm trying to think of some quotes or something
 1745 from it you might now! Have you heard of like Mr Kink? It's just like
 1746 gangsters robbing a bank or something..
 1747 **Is it like classic Tarantino, like violent...**
 1748 Yeh, very gory. I'll look it up.
 1749
 1750 Do you like that kind of stuff? **Yeh, I quite like his early movies. He doesn't compromise. If**
 1751 **he wants to show someone getting beheaded he will show**
 1752 **it, without trying to whitewash it. I like that.**
 1753
 1754 And he puts himself in hi smokes as well. Like little cameo roles... I don't think he's great!
 1755 Maybe better behind the camera than in front of it!
 1756
 1757 What's Maybe Maybe?
 1758 **It's a song I found a couple of days ago, It's by a guy**
 1759 **called Jason somebody. It's... folk music?**
 1760
 1761 Ok. **I listen to all sorts of music, I just went through my**
 1762 **spotify and the last three songs.**
 1763
 1764 Oh that's good, because I found that
 1765 question really difficult.
 1766
 1767 **BELL**
 1768
 1769 I know! It seems so quick! I wanted to ask you about the [PLACE] **Because that's where I'm**

Commented [CE251]: Data as the starting point to conversation.

Less interested in the data itself.

Commented [CE252]: Only needing one thing to start a conversation.

Commented [CE253]: Guessing one piece of data from another.

Commented [CE254]: But asking if she is happy for him to make such a guess.

Commented [CE255]: His guess is wrong – she then describes how her foot measurement is not really accurate – she is between sizes.

Commented [CE256]: Excusing the data she doesn't know or would be too effortful to record.

Commented [CE257]: Long conversation about Reservoir Dogs.

1770 from!
1771
1772 Oh really? Yeh I was saying it's nice jet to get out
1773 and to be free and enjoy yourself.
1774
1775
1776 =====
1777
1778 Date 16
1779 Hello.
1780 Hi!
1781 Well.
1782 This is fun.
1783 Yes. My 5 minutes with [ANON].
1784 Yay! This is so awkward (something?)
1785 I'm going to take yours.
1786 Yeh that's a good idea.
1787
1788 [ANON]
1789 [ANON]
1790 [ANON]
1791 [ANON]
1792
1793
1794 Ha! That's even worse. But I didn't even twig on -
1795 I didn't call her for two days and
1796 she was like 'what's wrong?'.
1797
1798 [ANON]
1799
1800 Well I looked at that after. and was like 'oh, I know who it is now.'
1801
1802 Yours is boring.
1803 Mines was really really boring.
1804 Really boring.
1805 (laughter)
1806 I know.
1807 Great, I get to see what you eat. And it's the same thing every day.
1808
1809 And I'm so annoyed, at that because normally if I had
1810 done my shopping, it would be really good stuff.
1811
1812 That was me doing it yesterday going oh my god I need to just fill something in. Just because
1813 I had been to Liverpool and I hadn't been shopping.
1814
1815 Yup right ok, you do work and you browse the web. You drink...
1816 And I sleep.
1817
1818 I suppose this is the most interesting bit but it's still not really.
1819 No... I'm afraid you're really boring.
1820 I know I know. I did add this bit on afterwards.
1821 Yeh - ok. Things... ok. What's this..
1822 Similar interests.
1823 Erm yeh, if I could do it again I would need to redo this. And I was thinking, if I'm trying to sell
1824 myself to someone, that's not what I would put on.
1825
1826 You should choose your favourite week or your ideal week of
1827 food, and then just fill it with exciting things.
1828
1829 Aw just made it up? Yeh. But I was in work yesterday and I thought I just wanna get it done.

Commented [CE258]: Other data she wanted to ask him about.

Commented [CE259]: Drawing on previous conversations.

Commented [CE260]: Taking her profile.

Commented [CE261]: Teasing her boring profile.

Commented [CE262]: Repetition as boring.

Commented [CE263]: Appeal to normal and lack of shopping.

Commented [CE264]: This data though honest is not what she would use to try and sell herself.

Commented [CE265]: Suggestion of presenting an ideal self, and favourite things. The best week possible.

Discuss how ideal self is handled in relation to data.

Commented [CE266]: Not sure on this idea – claims with lack of time it was easier just to do it and be honest.

1830
 1831 Yours was good I dunno how you know your heart rate, did you make that up?
 1832
 1833 I used my phone. I noticed other people had filled in
 1834 the heart rate, they're like 80's or 90's.
 1835 Well yeh that's something else that [ANON]
 1836 noticed - do you want to have a really low
 1837 heart rate, do yoga, and pole and pilates.
 1838
 1839 Yeh...
 1840 Is this 'be late', is this how many times you are late for work?
 1841 Just late for things this week.
 1842 See if that was a woman - late question mark - oh my
 1843 god - do I need to go to the clinic or something?
 1844 People in my house - even I looked at that and I didn't
 1845 twig on it was you. When do you have 3 in your house?
 1846 Well I will if [ANON] moves in.
 1847 Are these months?
 1848 I don't know what they are, just points in time. Just
 1849 like an overview..
 1850 Yeh you might have a full house.
 1851 Well [ANON] wanted to move in now..
 1852 Oh really..
 1853 See that's probably...
 1854 He says it doesn't matter.. but I might send her to
 1855 [ANON] because she's got a spare room. [ANON] does
 1856 like that spare bed.. but.
 1857 Yeh, I think that.
 1858 [...ANON...]
 1859
 1860 Pause
 1861 Oh I'm annoyed how boring mine is.
 1862 Yeh. Well I know that about you.
 1863
 1864 Yeh you know anyway, so you're fine. I don't need to
 1865 impress you [ANON]. I'm boring thanks. Fuck you!
 1866 (laughter)
 1867 BELL
 1868 And on that note - go away!
 1869 Excellent note to leave it on! I'll expect a
 1870 message in my box later!
 1871 Yeh, I'll do that!
 1872
 1873
 1874 =====
 1875 Date 17
 1876
 1877
 1878 Ok, this one's mine. It's the wrong way round. Am I sitting in wrong place...
 1879 (pause)
 1880 Oh I did have yours. I was trying to.. I saw yours over there.
 1881 (pause)
 1882 Things that make me swipe right.. oh nice.
 1883 Oh I added that.
 1884 Beard... funny self-description. You see, apart from the beard,
 1885 obviously, those are all things that would make me swipe right.
 1886 Really? I did that at the end -
 1887
 1888 We were just saying before, like on the girl end of Tinder... you see
 1889 loads and loads of pretty girls, but like, you know, just pretty girl in a

Commented [CE267]: Questions about how to record heart rate - and therefore if he made it up.

Commented [CE268]: Comparisons to other people's heartrates.

Commented [CE269]: Question about the detail - 'be late' is ambiguous. Mary suggests what it could mean.

Commented [CE270]: Suggesting alternative interpretation - if it were someone elses profile. Wilful misinterpretation for humour.

Commented [CE271]: Noticing other things that should have indicated profile belonged to Seb.

Commented [CE272]: Not explaining the ambiguity in his own graph.

Commented [CE273]: Further reflection/summary of how boring hers is.

Commented [CE274]: Feels need to be honest that she added to her profile.

Commented [CE275]: Comparing similarities.

Commented [CE276]: Long chat now about Tinder.

1890 club, with a glass of wine. Pretty girl in a club, with a glass of wine.
 1891
 1892 Would she need to have something on her that was differentiated from..
 1893
 1894 Yeh I think so yeh. And just something that was enough to start a conversation
 1895 as well. Otherwise it like I... think you look really fit... Hiya!
 1896
 1897 So if she said yes first would that be off putting or would that be good?
 1898
 1899 No no, I've had one girl say yes that I've went on a date with and that was kinda nice.
 1900
 1901 [MORE TINDER CHAT - 40s to 4m29]
 1902
 1903 (pause)
 1904 What's this - miles run, what's Strava?
 1905 Strava is like a running and cycling app, which
 1906 I've been using. Like I run a little bit, and I track
 1907 sometime this week. But I haven't done
 1908 anything this week, because I had a cold.
 1909 Oh ok.
 1910 I've felt the same as well.
 1911 I've sat in the house all week, and in that horrible hotel.
 1912
 1913 BELL
 1914
 1915 =====
 1916
 1917 Date 18
 1918
 1919 Am I meant to look at yours?
 1920 Yeh we can swap if you like?
 1921 Yeh.
 1922 I think I've had a look at yours...
 1923 Have you?
 1924 Well yeh - 20cm hair..
 1925 Oh, you're checking now! I dunno I just made that up, I
 1926 wasn't sure. It's not like I'd measured my hair.
 1927
 1928 (pause)
 1929 Hmm, I did measure mine, though I used my fingers to do it.
 1930 (Pause)
 1931 I didn't have a look at yours before hand.
 1932 You didn't?
 1933 Because we didn't look at all of them, we started talking. I
 1934 have no idea what this is though, you have to explain that one.
 1935
 1936 I'll have to explain all of it. Have you noticed? There's no information in here!
 1937
 1938 Yeh, this is just a 4 dimensional graph I attempted to draw...
 1939 Just!
 1940 It only has a single data point on it,
 1941 You? That's the data point?
 1942 Just a data point yup. Along the axes we have
 1943 no. I've worn sandals this week..
 1944 Is that a zero or a...
 1945 That's a one.
 1946 Pretty unbelievable, given how it's freezing right now!
 1947 We have number of times I've been
 1948 Metadating, or speed dating actually.
 1949 Which is one..

Commented [CE277]: No questions asked of his until this point.

Questioning unfamiliar name of app.

Almost no discussion of data in this date.

Commented [CE278]: Unsure what to do with data profiles to start.

Commented [CE279]: Admitting seeing hers before.

Commented [CE280]: She suggests he is checking whether her data is right.

Admits making it up – guessed. Not claiming to have measured (*so it could be right/wrong and doesn't really matter*).

Commented [CE281]: Describing strange technique of measurement of hair.

Commented [CE282]: Admitting having no idea about what some data means.

Commented [CE283]: Seb deliberately made his profile really ambiguous – and is pointing this out to her. It all requires him to explain it in some degree.

Commented [CE284]: Seb being clever with his data – drawing a 4D graph, with one shared data point.

Commented [CE285]: Following him – suggesting the data point as confirmation?

Commented [CE286]: Proceeding to explain axes – with Bettina adding comments/judgement as he goes along.

1950 This one is the number of times that I've bought myself a
 1951 [ANON]
 1952 (Laughter)
 1953 So it's one in all dimensions!
 1954 What's is the future one?
 1955 I forgot what I was gonna put on there, and then I remembered, and then I forgot again.
 1956 First times huh? I'm sure there must be other first times that could go on there...
 1957
 1958 Actually it's not first times, it's only once times... It's really
 1959 exciting that whatever that is, that's why I forgot it twice.
 1960
 1961 Yeh someone was talking about this earlier, that they should have put this on their profile,
 1962 how many texts they had sent this week.
 1963 I was surprised how balanced it was.
 1964 Is this how many minutes you actually talk on the phone?
 1965 Erm... that's actually completely wrong, because
 1966 per month I actually use up to 900 minutes.
 1967 Really?
 1968 Yeh.
 1969 This is just a monthly phone bill.
 1970 That's (mumble...)
 1971 Oh that would be great, because then back in 2006... there would
 1972 be a peak where I hit £2000 in one month.
 1973 Jesus! How did you manage that? Abroad?
 1974 Calling, at home. Just calling a lot of mobiles from a landline.
 1975 I've only managed that when I was younger, and my boyfriend moved away, and I had a
 1976 landline at my parents house, and we spoke all night.
 1977 I think mines were multi-conference calls- just like calling lot
 1978 of people at the same time and I was hosting all the calls.
 1979 But I don't think I spend much time on the phone any
 1980 more. I spend much more time sending messages.
 1981 Yeh, no, I like talking. Yeh - I was pleased how balanced these were, because
 1982 sometimes it can be like 'oh look, you sent 4 messages'
 1983 Laughter
 1984 And you didn't receive anything!
 1985 So that wasn't too boring - that was the one app that I
 1986 had on my phone that had something for this week.
 1987 (Pause)
 1988 But you did seem to do exercise quite a bit.
 1989 I do yes. I mean I didn't bother putting..
 1990 [...ANON....]
 1991 For your house?
 1992 Yes.
 1993 Brilliant. For your own... use.
 1994 Yes. It's amazing. It's so good.
 1995 I had no idea.
 1996 (Small interruption by facilitator)
 1997
 1998
 1999
 2000
 2001
 2002
 2003
 2004
 2005
 2006
 2007
 2008
 2009

Commented [CE287]: Finale – conclusion – it's one in all dimensions.

Commented [CE288]: She recharacterises this as a graph of first times.

Commented [CE289]: Which he corrects.

Commented [CE290]: Describing his own surprise at the data (again an expression of what's normal and not for him).

Commented [CE291]: Highlighting other data that is completely wrong.

Commented [CE292]: Pointing to how this data can differ at other times.

Again setting norms/usual.

Commented [CE293]: Judgement as question – you seemed to do this.

2010 I get to find out where you eat, no. of steps. yeh you do fewer steps than me.
 2011 (Laughter)
 2012 But you cycle.
 2013 Yeh.
 2014 I notice cycling in here. So I was like this person cycles.
 2015 So that's ok? (laughter)
 2016 Possibly a girl. The music's good.
 2017 (Laughter)
 2018 Films, they're ok. The books - I don't know them.
 2019 Well I didn't know if films to say
 2020 three recent favourites, or three
 2021 all time favourites.
 2022 I think this is all time - when did you first read
 2023 it? That's not recent is it?
 2024 What the Hitchiker's guide?
 2025 Yeh, well, this one is recent.
 2026 Well I have no idea when I read it - it's one of those things.
 2027 I dunno if you remember when you read books?
 2028
 2029
 2030
 2031 =====
 2032 Date 19
 2033
 2034
 2035 Hello. I'm [ANON]
 2036 I'm [ANON]. I was saying to erm.. I can't remember her name (Laughter)
 2037 I don't have that much data on my thing because I just came in.
 2038 That's alright!
 2039 So it might feel like I'm cheating a little bit, but I
 2040 think we have enough to talk about!
 2041 (laughter) I have loads if you wanna start?
 2042 You started a little bit on it today?
 2043 Yeh...
 2044 255 steps, that's not very much?
 2045 I just measured it today..
 2046 On the way here?
 2047 Yeh, I've been at home all day watching movies and I
 2048 didn't really do anything else!
 2049 Sounds like a good day compared to my Sunday of
 2050 just running around here setting things up.
 2051 (Pause)
 2052 7km?
 2053 No 7000.
 2054 7000. Thought it was 7.2 km!
 2055 No that should probably be a comma or something!
 2056 Where was the 4000 miles to?
 2057 I am actually 4200 miles from home now.
 2058 Where's home then?
 2059 Erm... Maryland, America. Yeh.
 2060 How long have you been here?
 2061 8 years. I'm did my undergrad here, and then my
 2062 Masters degree, and I'm just finished a PhD.
 2063 Oh wow, well done. [ANON]
 2064 Walking pace - slow! (Laughter)
 2065 Yeh, that's my general walking pace.
 2066 Yeh I didn't... I liked Pizza but I didn't want to put it on there.. because I thought that's a bit

Commented [CE294]: Giving a set of comments/assumptions he's making of her data.

Amusing to her in response.

Commented [CE295]: Unsure about what data is correct to provide.

Commented [CE296]: Making sense of her data for her - you meant x.

Commented [CE297]: Fear that as he isn't sharing enough data he is 'cheating' it could be an unfair exchange.

Commented [CE298]: Since Bettina has lots - invites him to start.

But start means her commenting on his data.

Commented [CE299]: Asking him to explain low number of steps.

Commented [CE300]: Questioning distance from home - where is 4000 miles. Ambiguity inviting question.

Leading to set of questions about his family/education history.

Commented [CE301]: Amusement at ambiguous general measurement - slow.

2070 (laughter)
 2071 I've actually got a massive stack of boxes in my flat for
 2072 some reason. (mumble)
 2073
 2074 Dirty dancing!
 2075 Yeh, I think in terms of all time favourite's it has to be...
 2076 Is that the one with erm, what-his-
 2077 name the scientology guy...
 2078 No - Tom Cruise?
 2079 No.
 2080 Patrick Swayze?
 2081 No erm.. PanAm 123? Aw what's he called? I
 2082 can't remember his name.
 2083 Well the main actor is Patrick Swayze.
 2084
 2085 It's a bit erm.. I thought I'd mix it a little bit and put in Star Wars and a cheesy romantic
 2086 comedy.
 2087 Is that the one with Audrey Tautou?
 2088 Yeh, the French.
 2089 The French one...
 2090 I've not actually seen it that many times I think...
 2091 Did you watch it in French?
 2092 Yeh yeh,
 2093 Really, do you speak French?
 2094 No, but I'd rather watch it with subtitles. Because I'm originally from Germany, and everything
 2095 is dubbed, and I'd rather not go back.
 2096
 2097 Well French is my first language. I was born in [ANON], then my family moved over to
 2098 America, and then I came back to the UK to study. So I speak fluent french. (Laughter)
 2099 Nice! (laughter)
 2100 Well I kind of speak fluent German, still, hopefully!
 2101
 2102 I was in Germany last, last weekend, end of Novemeber.
 2103 Is that here in Aachen you went?
 2104 Yeh yeh! We went to the Christmas markets, it was
 2105 really nice, I really liked it. Would like to go again?
 2106 You had some mulled wine?
 2107 Yeh, Gluwhein isn't it? And the little shoes.
 2108 Shoe?
 2109 Like boots. So we brought quite a few of them back. I was quite surprised
 2110 by the diversity of people there. Because there were people from all over,
 2111 from parts of America, and Africa. And the announcement came on, and
 2112 the first language was English. And I was like 'why are you doing the
 2113 announcement in English in Germany?
 2114
 2115 I really have no idea.
 2116 BELL
 2117 This is really quick isn't it? (laughter)
 2118 Anyway, right.
 2119 II'll leave it there.
 2120
 2121
 2122 =====
 2123
 2124 Date 20
 2125
 2126 Hello!
 2127 We were just thinking it's a bit too short..
 2128 Yeh you don't have time to look at all the
 2129 data, and I forgot my wine!

Commented [CE302]: Desire to 'mix it' and show some different sides of her movie tastes.

Commented [CE303]: Linking data in front of her to ongoing conversation about his visit to Germany.

Making data relevant in course of things.

2130 Do you want to grab it?
 2131 No no it's fine!
 2132 Do you want to swap?
 2133 Sure.
 2134
 2135 Ahh I've seen this before?
 2136 Yeh! We had a conversation about yours!
 2137 Oh really?
 2138 Yes, the physical and mental activity, which is quite interesting.
 2139 What that I'm not more
 2140 physically active? (Laughter)
 2141 No that you kind of collapse
 2142 between midnight and 6 o'clock.
 2143 No, it's just Friday, it's not general in anyway.
 2144 No, but I think it's a nice correlation.
 2145 My plan was to do it everyday, so I had different colours for everyday, but first of all
 2146 you couldn't see it, and second of all I didn't really do it so...
 2147
 2148 Ah... oh yeh, I could have guessed that actually. When we had that someone had that
 2149 their favourite town was my hometown but yeh you lived there for a bit..
 2150 Yeh Sorry...
 2151 You shouldn't be sorry about that, I
 2152 like my hometown.
 2153 I dunno, I'm not so keen on my hometown.
 2154 [ANON PLACE]
 2155 [ANON], it's alright, but I wouldn't want to live there.
 2156 I've been there for a half
 2157 day or something.
 2158 But I think it's, I feel I've met a lot of people who
 2159 wouldn't want to go back to her hometown.
 2160 So you're actually saying you're not honest when
 2161 you say you would want to go back to...
 2162 I would want to go back to Copenhagen,
 2163 but not to [ANON]
 2164 Are you actually counting your steps?
 2165 Yeh I've got an app, because I'm trying to be more active. Because I know sitting down all
 2166 day, is a bit like, I need to...
 2167 Yeh, I just realised when I was doing this how little I actually move around.
 2168 Yeh, but it's kind of interesting because it doesn't actually have any kind of
 2169 measurement. This could be anything, this could be like getting up from your
 2170 desk, or actually running 5 miles.
 2171 I think this is actually getting up to go to a lab talk.
 2172 Is this getting up from the
 2173 sofa to go to bed?
 2174 It's actually cooking, because I'm quite active in the
 2175 kitchen I would say.
 2176 Is it midnight?
 2177 Ah... well... probably, it was a bit difficult to fit it all into the graph.
 2178 But yeh it was probably a bit.. I do eat late though, but not that late.
 2179 How many... you counted bike rides?
 2180 No, I just started it the last week, the last day of it
 2181 was yesterday. I only got this on Wednesday, so
 2182 most of it is made up.
 2183 Yeh I've done that with some of it, it's kind of average.
 2184 I think it's kind of true.
 2185
 2186
 2187
 2188
 2189

Commented [CE304]: Mutual disclosure that they've seen the profile before and had conversations about them.

Commented [CE305]: Intrigued as to what others have said about his data.

Commented [CE306]: Suggesting one possible negative interpretation.

Commented [CE307]: It's just this specific time – not a general/normal representation.

Commented [CE308]: Complimenting the idea of the correlation.

Commented [CE309]: Sense that he should have recognised her from the profile.

Given he knew something about her.

Ensuing conversation about hometowns.

Commented [CE310]: Questioning integrity of data – and as such how measured.

Commented [CE311]: Explaining what she has (an app) and why (be more active) then more specifically (because I sit down all day).

Commented [CE312]: Empathising with this point of view – yeh I don't move much either.

Commented [CE313]: Mutual interpretation and sense-making of what the graph he drew means and represents.

Because of the ambiguity of the measurement.

Commented [CE314]: A suggestion of what he thinks it is.

Commented [CE315]: Tongue-in-cheek suggestion as a question.

Commented [CE316]: Counter-explanation about cooking activity.

Commented [CE317]: Questioning point in scale.

Commented [CE318]: Admitting the flaws in how graph represented.

Commented [CE319]: And reframing to say – it's sort of right – but not exactly. It's more like x.

Commented [CE320]: Surprise/question about what he measured.

Commented [CE321]: Admitting to making up data.

Commented [CE322]: Admitting making it up – but justifying because it's 'kind of average'.

And for Nicolas likewise – it's kind of true.

2190 Yeh.
2191
2192 **You've been to Norway or is this just a drawing?**
2193
2194 This is just a drawing of trying to be a map of travels that I've done over the years. But I don't
2195 really have a map and it's really shit drawing.
2196 **Oh I don't know...**
2197
2198 Are you trying to... is this how often you ring your bell or how often you cycle?
2199
2200 **It's kind of both. Yeh, because I put it like * everyday I used my bell,**
2201 **and to me that was just interesting because if I was in Copenhagen,**
2202 **I would definitely use it many times, everyday...**
2203 But without using the bell too much?
2204
2205 **But I use the bell a lot... I'm really aggressive to be honest! (Laughter)**
2206 **But here I don't really use the bell too much, it's mostly cars**
2207 **and it doesn't work to ring the bell!**
2208 You need a really loud horn or something!
2209 **Maybe I should get that.**
2210
2211 **You also measure the heart rate?**
2212
2213 Yeh, I started doing that recently, there is an app now, where you basically hold your finger,
2214 off the back, so I thought it was interesting because whenever I go running, I have no ideas,
2215 I'm so unfit I thought it would be interesting to know.
2216 **That's very honest.**
2217 Yeh! That's me!
2218 **BELL**
2219
2220 =====
2221 Date 21
2222
2223 **Ah Nissen!**
2224 Hello.
2225 **Hi!**
2226
2227 **How are you?**
2228 **Come here often?**
2229 Never! Never been here before! Although my tracking data would
2230 say something else.
2231 **Lets see how you did.**
2232
2233 I know... it's a bit short isn't it 5 minutes.
2234 **It is short, yeh. I've been having some**
2235 **nice conversations.**
2236 Me too!
2237
2238 (pause)
2239
2240 I did the same thing.
2241 **I know, loads of people did the same thing.**
2242 Travel...
2243 **Travel globes.**
2244
2245 **Actually mine doesn't have Newcastle in there.**
2246 **July...**
2247 [PLACE]
2248 **Oh [PLACE]?**
2249 Very exciting!

Commented [CE323]: Question – suggesting two explanations.

Commented [CE324]: Confusion over what is represented – seeking clarification.

Commented [CE325]: Explaining why a particular measure (ringing his bell) is interesting to him. - it's different here from home

Commented [CE326]: Further question about her measurement of heart rate.

Commented [CE327]: Explaining what (an app) how (finger on camera) why it's interesting (I run and I don't know and I'm unfit).

Commented [CE328]: How you did – definite sense this was a task/challenge which some people did better than others.

Commented [CE329]: Comparing on how they used/expressed their data.

Commented [CE330]: Referencing what other people do/have done.

Commented [CE331]: Pointing out differences (despite similarities).

2250 I thought it said Fatmouse!

2251

2252 I like it, Making things, Writing about things.

2253 That's pretty much it really isn't it. You make

2254 stuff, then you have to write about stuff.

2255 Which is the dip in September of not

2256 making anything...

2257 Yup and the writing just goes upwards.

2258 You think you could track that somehow actually?

2259 I dunno..

2260 In terms of how much you sit down...

2261

2262 Because I really struggle with sitting down all day, like since I've come to

2263 [workplace]. And I did it for a year and a half (at a games company?)

2264 where I had to sit in a chair all day.

2265 Was the games company the same?

2266 Yeh, pretty much, just longer hours.

2267

2268 (pause)

2269 Haha, [PLACES] was in the mix.

2270 Ah.

2271 Prêt, prêt prêt, M&S...

2272 Yeh, hey exciting! (laughter)

2273

2274 (Pause)

2275 What does that say? Ah random other bits...

2276

2277 Yeh random other bits... I'm not very good at categorising my music tastes. Yeh, something

2278 along those lines, but I don't really select it by one. It's I like a bit of this, I like a bit of beastie

2279 boys... Yeh I find those really hard to select three.

2280 Yeh, no, absolutely.

2281

2282 (pause)

2283

2284 Is that Lenka?

2285 Yeh.

2286 I don't think I know Lenka, what are Lenka like?

2287 She's a singer song writer - i wanna say Swedish? I'm not sure, probably not. I dunno.

2288

2289 (pause)

2290 So these are...

2291 That is a kind of map. Yeh,

2292 States, Scandinavia and [HOMETOWN]

2293 (laughter)

2294

2295 Are these scales?

2296

2297 Yeh - that's kind of weight - I think I should try to lose a bit of weight rather than eating all this

2298 chocolate that I like to eat. Not that I would like to share this on this kind of profile.

2299

2300 Have you gone back on the coffee then?

2301 Er... I've been drinking occasional cups of coffee, and it's just great.

2302 (Laughter)

2303 And I love it so much. I still miss it so badly. So I can get away with drinking a couple

2304 cups a week. But also because now I don't drink it, when I do have coffee it like

2305 'ahhhhhh'. Properly for the whole morning.

2306

2307 (Anecdote about coffee and losing voice at workshop).

2308

2309 BELL

Commented [CE332]: Wilful misinterpretation.

Commented [CE333]: Complimenting topic of graph/measurement.

Commented [CE334]: Question about how you could 'actually' track this perceived sort of measurement.

Commented [CE335]: Suggestion of one particular measure.

Commented [CE336]: Cue for anecdote about sitting down too much.

Commented [CE337]: Just repeating each other's data to each other.

They know each other well, and their practices - more interest here about how they creatively made the profile.

Commented [CE338]: First actual question about her data beyond - what's that exactly?

Commented [CE339]: Using data in reference to previous discussion they must have had about not drinking coffee.

Very contextualised comment vs for example 'do you like coffee?' say.

2310 But I like your correlation between concentrate and coffee. Was that on purpose or did you
2311 make it up?
2312 That's just how it goes.
2313
2314
2315
2316
2317 Date 22
2318
2319
2320 Right.
2321 Heart rate or - Ah, this is you with the [Pubname]. What is the [Pub Name]? Pub.
2322
2323 It's the sad... it's the pub. Do you know how easy it is to go to the pub
2324 after work? It's, but I've put it there, not because it's my life, because
2325 it's a little bit embarrassing, but I do like it.
2326
2327 I thought it was the number of - I was really excited I thought this guy's seen 3 [pub name]
2328 this week. He's actually seen [pub name].
2329 That would have been more interesting.
2330 And then somebody said I think it's the pub.
2331 I did count [birds] though. Is that weird?
2332
2333 Did you? Aw, you could have put [birds]! (Laughter)
2334 Sorry!
2335 Are they potatoes or cookies?
2336 They're biscuits yeh. They're actually fruit shorties specifically.
2337
2338 So you did the same as me you did a little sort of musicy thing. So what is yours
2339 though? Is that listening to it?
2340 Yeh.
2341 That looks like the eye of sauron.
2342 That's a record! It should be!
2343
2344 Ah yeh...
2345 Bladerunner.
2346 Ah Mumford & Sons.
2347 Do you like or are they..
2348 No!
2349 No you don't like them.
2350 No way, I'm afraid.
2351 'Live music I go to, what live music did you go to on
2352 Wednesday and... Sunday?
2353 There's surf cafe where I live.
2354 A surf cafe where you live?
2355 Yeh, so [place] you know the Tyne (inaudible...) SO they've
2356 got a [ANON].
2357 Oh yeh!
2358
2359 Wednesday night they do a buskers nights, on Sunday nights, they do a pre-arranged
2360 acts show. So I tend to either try and... It's more the options are either Wednesday or
2361 Sunday, I go most weeks. If I was being honest, this is what I've done really recently.
2362
2363 So where...
2364 Worked my own business.
2365 Yeh. So where..
2366 Own business as in just my own stuff or own business
2367 as in a business business.
2368 No I have a tiny little business making computer games.
2369 Is that what this is?

Commented [CE340]: Asking if a correlation was made up, or by accident.

Commented [CE341]: Recognising profile and a particular piece of data.

Commented [CE342]: Wilful misinterpretation.

Commented [CE343]: Offering something else similar he does count – and questioning if that is odd/normal.

Commented [CE344]: Being specific about her data (the drawing).

Commented [CE345]: Pointing to similarity.

Commented [CE346]: Repeating data. Both that she likes and that she doesn't.

Commented [CE347]: Reading out data then question.

Commented [CE348]: Partial response.

Commented [CE349]: Data showing what he could do – the options – rather than what he always does.

Commented [CE350]: Trying to ask a question – but interrupted by Ellen still reading out his data.

Commented [CE351]: Not so interested in talking about his data.

Feels talking about his business is boring.

2370 [ANON]
 2371 Oh.
 2372 I didn't know we were gonna do this, otherwise I would have been a bit
 2373 more... maybe creative.
 2374
 2375 More or less healthy over the days.. oh over the months.
 2376 That's legit though, that came off my iPhone.
 2377 So a pretty healthy end of November. In fact
 2378 you were the peak of health quite recently.
 2379 I've forgotten how far 10'000 steps is.
 2380 Oh it's steps I see.
 2381 Yeh, it's not km.
 2382
 2383 So where is 11,732 miles. That seems very specific.
 2384 Dunedin, in the South of the South Island of New Zealand.
 2385 Really?
 2386 I figured that's probably the furthest I've been. I tried Sydney, and then I tried that, and that
 2387 was furthest, so I thought that was probably the furthest.
 2388
 2389 Yeh. Wow. And what did you do there? How long?
 2390
 2391 What did I do there? In fact, we didn't find much to do in Dunedin. But very near there, we
 2392 stayed in a muddy field behind a cricket club in some little town, and drank raw egg yolks and
 2393 a load of top-shelf booze in a pint glass. Well I didn't actually, it was my ex who I was
 2394 travelling at the time, had to drink that, Because he was the man, and there were slots of men
 2395 there with big beards there who were going quail hunting.
 2396 Ok.
 2397 And they were like, we're men, you're a man, we drink this! And the poor bloke had to drink
 2398 that and was horribly sick!
 2399
 2400 I saw this earlier, well I didn't someone mentioned it, I actually do think Cumberland
 2401 Arms is one of my favourite places -
 2402 - It's one of the best places in the world. Isn't it?
 2403 It's like Christmas. It's like the Christmas pub,
 2404
 2405 BELL
 2406
 2407 It's the all year round pub. It was so lovely going in today, and the fires
 2408 were burning, and it was wonderful.
 2409
 2410 Wow.
 2411 Cool.

Commented [CE352]: Data is 'legit' because he actually measured it on his phone. Rather than having made it up.

(though this actually only represents his steps, rather than whole health).

Commented [CE353]: Unclear of units.

Commented [CE354]: Finally to ask his question – where is this distance – pointing to the specificity/detail of the number.

Commented [CE355]: Explaining process of reaching conclusion that Dunedin is the furthest place she has been.

Commented [CE356]: Opens up anecdote of time in NZ.

Commented [CE357]: Admitting to seeing this data before.

=====

Date 23

Hello!

Hello, I'm [NAME].

I'm sure I saw you before... Hi [NAME] nice to meet you. You have a familiar face, I have the impression to have seen you somewhere before.

Can we swap?

Of course. Sorry you're so serious aren't you? I shouldn't -

I'm not that serious!

Oh come on! (laughter)

Fantastic.

Yeh, I'll let you do the first question..

Oh, no that's so...

(Laughter)

**Right... erm...
What is this?**

(laughter)

Am I not the first person to ask you that?

No no, you're the first person!

It's like a time lapse of a stick person!

I'm not so good at drawing... my intention was to draw Italy and then my movement from Italy. Starting from a base point, which is my home. Anyway, and all my movement, like my (inaudible... Morocco)....

So Paris is your favourite place ever?

I think yes... the second most beautiful city in the world, I can say at least in Europe, after Rome!

That's my opinion.

What about yours?

Let me see... Cornwall!

Yeh, there's just specifically this one place, this really round bay where there are just... it's just kinda, I used to.. it's just really beautiful to look at.

Right, have you been there... ah very far away, 10 years ago.

No that's first visited.

Ah you used to go there -

- so my [...] are living in Cornwall now. So, not been to this specific bay, but I walk along the coast there and it's all just a lovely place. But this place is lovely because it has a wooden shack on the beach, it has cider. It's really weird, everyone's just sat on the beach looking at the sea, and just chatting, and it was really interesting. And then at night, there was yeh...

Yeh, [anon], you really have this dating move... this romantic landscape that you're describing (Laughter)

Oh no...

(Laughter - I'm joking sorry!)

Are you not confusing this with the fact that I've drunk lots of this.

Maybe, maybe... cheers then [anon]!

Wow... erm...

(clears throat)

Right.

So I like the way you've put something here, because I couldn't think of anything to put here.

Yes.. what did you put here, it's the same?

No, I meant on these little things. I had no idea what to do with that space.

Commented [CE358]: Inviting him to question her and her data.

Commented [CE359]: Describing intention, (which may not match end result).

Commented [CE360]: Turning to compare to his answers to same question.

Commented [CE361]: Correcting her - it's not 10 years since he has been, but 10 years since first visited.

Commented [CE362]: Complimenting how she has completed the profile.

2472 Ok, I will describe you mine. Actually it's probably the stuff I decide to already add with the
 2473 other one. Mainly because I didn't write nothing in this space.... but anyway, I was recording
 2474 the places where I was living in the last year. So I was in January I was in [PLACE] and then
 2475 in April I moved to [PLACE] and then in September I ended up here, and now in December
 2476 I'm going to [PLACE], so that's my four... I mean in 2014.
 2477
 2478 You have done same here? Isn't it?
 2479
 2480 **No this was real -**
 2481 **BELL**
 2482 **- This was this month, I went to my brother in Edinburgh.**
 2483 Yes... [PLACE].
 2484 **And then when I drove there was up the coast, but then I came**
 2485 **down through all the kind of (inaudible)**
 2486 Yeh. Fantastic. I know that you'll be sad to leave me but... (laughter)
 2487 [ANON]! You're taking it so seriously!
 2488 **No no.**
 2489 [ANON], what's going on, I'm distracting your romantic sphere... I thought it would be a good
 2490 person to date anyway! (inaudible end)
 2491
 2492
 2493 Date 24
 2494
 2495 Hello!
 2496 **Hello!**
 2497 How are you?
 2498 **I'm alright.**
 2499 Do you wanna swap?
 2500 **Sorry, Oh yeh, maybe? Yeh.**
 2501 (laughter)
 2502 **The furthest you've ever gone is 7,236 km away.**
 2503 Yeh. I think.
 2504 **Or 7.206. Which is like Byker.**
 2505 Yeh, I know, someone pointed that out.
 2506 **Really?**
 2507 Yeh, no that's how you would write it German.
 2508 **Is it?**
 2509 You don't do comma for a thousand.
 2510 **Where was it?**
 2511 That's Vancouver. I couldn't decide between South Africa and
 2512 Vancouver. I didn't know which was further.
 2513 **Where's yours?**
 2514 **I worked in Buenos Aires.**
 2515 Oh yeh.
 2516 **Yeh.**
 2517 Cool,
 2518 **Yeh it was awesome.**
 2519 Yeh I think you told me..
 2520
 2521 Where's Rovenimi?
 2522 **It's the capital of Lapland.**
 2523 **See that's really nice you're actually reading mine,**
 2524 **and asking me questions about it.**
 2525 Yeh I was just interrogated by Ed before.
 2526 **Are these your three -**
 2527 **- Ah you've got Ameile as well -**
 2528 **favourite places.**
 2529 Mm hmm.
 2530 **Right, honestly, how do you actually know, you've**
 2531 **actually watched Star Wars 20 times?**

Commented [CE363]: She is describing this part of her profile.

Commented [CE364]: Different to hers - 'real' because he took it from location data.

Commented [CE365]: Statement of her data - which requests some sort of answer.

Commented [CE366]: Wilfully misinterpreting to make a joke.

Commented [CE367]: Now asks for more detail on it.

Commented [CE368]: What about yours - comparing on same data point.

Politeness? Ease to ask?

Commented [CE369]: Appreciating someone reading and taking interest in his data.

Commented [CE370]: Questioning accuracy of her data - how can you know this?

2532
 2533 I have no idea, I made that up. It's probably not 20. How many hours would
 2534 that be? If you watched Star Wars 20 times, all three of them? (Laughter).
 2535
 2536 **Dirty dancing 100 times. I watched it once and quite frankly that was enough.**
 2537
 2538 Well I watched it several times when I was, I dunno, 18 whatever, I dunno, 16. So..
 2539
 2540 [Pub Name] is quite a bad..
 2541 **I know! [ANON] said that would have been really cool if it had been the number of**
 2542 **[Birds] I had seen. I didn't know [anon] or I would have been a bit more creative.**
 2543 But some people might actually read what we give them!
 2544
 2545 **Yeh but I got this today!**
 2546
 2547 **Erm, you also recorded steps.**
 2548
 2549 **What were you doing then?**
 2550 **Going clubbing on a Staurday night until 4am..**
 2551 **So Are they like dance floor steps?**
 2552
 2553 Some of it, but not all of it. And then walking home. Which is quite funny. Because then on a
 2554 normal week I would not be able to get that much.
 2555 **Are you doing steps on more of a map?**
 2556
 2557 **No, I was just really lazy with the partition. What can I say?**
 2558 Oh ok.
 2559 **That's like my steps graphs from Apple Health, and that's like my Google Maps.**
 2560
 2561 Ah yeh Apple Health. I've never upgraded so I've no idea. I'm still on iOS 6.
 2562 (chatting about phones)
 2563
 2564 **You've got such a low resting heart rate!**
 2565 I hadn't -
 2566 **Mentioning no names, somebody earlier should be dead..**
 2567
 2568 But is **this a resting heart rate**, it doesn't **actually say that.**
 2569
 2570 **I was really nervous though coming to a speed dating with a load of people I hadn't**
 2571 **met.**
 2572 **(as it turns out, with guys I hadn't met).**
 2573 But it doesn't say resting heart rate.
 2574 (pause)
 2575
 2576 **So.**
 2577 **BELL**
 2578 So. Interesting.
 2579 (Laughter)
 2580 Oh well, nice to meet you [ANON] (laughter)
 2581
 2582 **Nice to meet you [ANON].**

Commented [CE371]: Immediate admission that it's a guess. And qualification she has probably overestimated.

Commented [CE372]: Now he does not question this number of times .

Now that she has explained where these numbers came from.

Commented [CE373]: Passing on a joke about the data from someone else.

Commented [CE374]: Pointing to particular high point of activity – questioning what was happening then.

Commented [CE375]: Simple explanation – then clarifying question then more explanation.

Commented [CE376]: Question on how he is representing/measuring the same thing (steps).

Commented [CE377]: Describing which apps data came from.

Commented [CE378]: Judgement on resting heart rate (*why is this important/interesting?*)

Commented [CE379]: Joke about someone else's heart rate.

Commented [CE380]: Pointing out that her data isn't actually so clear.

Commented [CE381]: 'It doesn't actually say that' – *data is only what is said?*
