For the parent:

It is important that even young children have an opportunity to be involved in research, and have their views heard.

You know your child best, and are best placed to decide how best to tell your child about the research.

We have experience of telling children about research, and can help you with this.

If you would like more information about how to tell your child about the study, or want to discuss options for this – please just call us to discuss.

Tel: 07964329630 Niina

Thank you again for your interest!

ActiveCHILD. Participant information sheet for your child.v1.2016-12-12 *Use this to tell your child about the study.*

Children Playing

Hi! I am Niina

I want to know: How do you play?
